#### **NOTES (CONTINUED)**

The Group's business operations, particularly the hotel, recreation, gaming, property investment business segments and the jetty operations are adversely impacted by the re-imposition of various phases of MCO which resulted in continued borders closures, travel restrictions of foreigners, reduced footfall in shopping malls and the cancellation of number forecast draws during the MCOs. The MCOs were subsequently replaced with the implementation of different phases of National Recovery Plan which involved the progressive easing of restrictive measures going forward.

#### B1 Review of group performance

The main operating businesses of the Group are number forecast operation ("NFO") in Sarawak, property development and investment and the operations of hotel and recreation business. The key factors (other than general economic conditions) affecting the performance of the main operating businesses in the Group are as follows:

#### Property development and investment

 demographic of population, location of the properties, costs of building materials and related services, lending guidelines and interests rates of the financial institutions, rental rates, age and condition of investment properties and the quality of property management.

#### Hotel and recreation

- room rates, seasonal festive periods and school holidays, locations of the hotel and restaurants, tourism/currency exchange/dining out trends, energy/raw material/other supplies costs, quality of rooms/amenities/service and customer perception.

#### NFO in Sarawak

Following the global outbreak of COVID-19 pandemic, the Malaysian Government had imposed various phases of Movement Control Order ("MCO") since 18 March 2020 as a preventive measure to curb the pandemic. On 15 June 2021, the Malaysian Government announced the implementation of National Recovery Plan ("NRP") as an exit strategy of the Covid-19 pandemic whereby the resumption of business operations and social activities and the lifting of travelling restrictions will be progressively done in phases.

The summary results of the Group are as follows:

#### B1 Review of group performance (Contd)

#### For the Quarter

The Group registered revenue of RM41.4 million and pre-tax loss of RM1.6 million in the current quarter ended 31 December 2021 as compared to revenue of RM43.9 million and pre-tax loss of RM11.7 million reported in the previous year corresponding quarter.

The lower Group revenue of the current quarter was mainly due to lower revenue reported by gaming and property investment business segments. Natural Avenue Sdn Bhd ("NASB") reported lower average revenue per draw whilst the property investment business segment has granted higher rental rebates to eligible tenants.

However, these have mitigated by the higher sales of theme park tickets generated by hotel and recreation business segment due to reopening of business activities during the Phase 4 of the NRP implemented in the current quarter under review, following the successful rollout of national COVID-19 vaccination programme.

The Group reported a lower pre-tax loss in the current quarter under review primarily due to the lower impairment of receivables recorded by the property investment, hotel and recreation business segments.

#### For the 6-month period

For the cumulative six months ended 31 December 2021, the Group registered a revenue of RM62.8 million and pre-tax loss of RM18.7 million as compared to a revenue of RM94.7 million and pre-tax loss of RM16.9 million reported in the preceding year corresponding period. The Group's revenue was lower in the current 6-month period under review mainly due to the cancellation of all 45 draws for the entire 3-month period from 1 July 2021 to 30 September 2021, which resulted in no revenue being registered by NASB during the implementation of the Phases 1 and 2 of NRP. The authorities in Sarawak had allowed the NFO operators in Sarawak to operate from 1 October 2021 onwards. In the previous year's 6-month period, NASB had conducted 84 draws during the Recovery MCO. In addition, the property investment business segment reported lower revenue due to temporary business closures for most part of the first 3 months in the 6-month period under review due to the implementation of Phases 1 and 2 of NRP.

The pre-tax loss in the current 6-month period under review was primarily due to the significantly lower revenue reported and factors explained in the above preceding paragraph.

#### B2 Second Quarter vs Preceding First Quarter

	3-Montl	3-Month Ended			
	31/12/2021 RM'000	30/09/2021 RM'000	+/(-) %		
Revenue	41,382	21,377	94		
Profit/(Loss) from operations	10,242	(4,826)	(312)		
Loss before tax	(1,584)	(17,104)	(91)		

For the current quarter under review, the Group registered a revenue of RM41.4 million which was higher compared to the revenue of RM21.4 million in the preceding quarter ended 30 September 2021. The current quarter's pre-tax loss of RM1.6 million was lower when compared to a pre-tax loss of RM17.1 million reported for the preceding quarter.

For the current quarter, the hotel and recreation and gaming business segments have reported higher revenue mainly due to higher sales of theme park tickets, and resumption of business by Natural Avenue Sdn Bhd. However, the lower revenue from the property investment business segment was due to lower rental income and rental rebates granted to eligible tenants.

The Group reported a lower loss before tax in the current quarter under review was primarily due to the higher revenue reported in the above preceding paragraphs. The Group also accounted lower share of losses from its joint ventures due to the resumption of business activities. In addition, the Group recorded lower impairment of receivables in the current quarter under review.

#### B3 Future Prospects

The COVID-19 pandemic which resulted in unprecedented preventive and restrictive measures of varying degrees of global population lockdown had adversely impacted the global economy. In Malaysia, the Government is imposing various degrees of population lockdown to slow down the infection rate amongst its population. This inevitably has adversely affected the domestic economy.

Currently, most states in Malaysia are placed under Phase 4 of NRP with the full resumption of business activities and certain social activities. However most of the international borders are yet to be fully opened. The Group's business operations are now gradually moving to the recovery phase.

#### B3 Future Prospects (Contd)

In view of the immense challenges created by the prolonged pandemic, the Group is unable to forecast with certainty, when its business operations will return to the level prior to the COVID-19 pandemic. Hence, the Directors expect the operating results of the Group for the financial year ending 30 June 2022 to remain challenging as the Group continues to deal with the adverse impact on the country's economy arising from the pandemic and adapting its business operations in the new norm of living towards the endemic stage going forward.

- B4 There is no profit forecast or profit guarantee for the financial quarter and period ended 31 December 2021.
- B5 The income tax expenses for the financial quarter and period ended 31 December 2021 are detailed as follows:

	Current	Financial
	Quarter	Period
	ended	ended
	31/12/2021	31/12/2021
Malaysian taxation:	RM'000	RM'000
Current period provision	255	1,389
Deferred tax	(29)	(71)
Withholding tax	147	294
	372	1,611

The disproportionate tax charge of the Group for the financial quarter and period ended 31 December 2021 was mainly due to certain expenses being disallowed for tax purposes, as well as non-availability of the Group tax relief in respect of losses incurred by certain subsidiary companies.
