### corporate profile

Berjaya Land Berhad ("B-Land") was incorporated in 1990 to implement the Restructuring Scheme undertaken by Sports Toto Malaysia Bhd ("Sports Toto") whereby the entire paid-up capital of Sports Toto was acquired by B-Land. Simultaneously, B-Land made major acquisitions of various property and leisure activities which was funded via a Rights and Special Issue.

Sports Toto was incorporated in 1969 by the Malaysian Government for the purpose of running Toto betting under Section 5 of the Pool Betting Act, 1967. It was privatized in 1985 when its Chief Executive Officer, Tan Sri Dato' Seri Vincent Tan Chee Yioun, through his private company acquired 70% of the paid-up capital. Sports Toto was listed on Bursa Malaysia Securities Berhad (formerly known as Kuala Lumpur Stock Exchange) in July 1987.

Subsequently in November 1987, RekaPacific Berhad (formerly known as Berjaya Industrial Berhad) ("RekaPacific") completed a general offer to Sports Toto which resulted in Sports Toto becoming a subsidiary of RekaPacific.

On 11 October 1996, Berjaya Group Berhad ("BGroup") completed the purchase of Teras Mewah Sdn Bhd ("TMSB"), a wholly-owned subsidiary company of RekaPacific. TMSB had on 28 August 1996 completed the purchase of the entire shareholding in B-Land from RekaPacific comprising approximately 247.5 million ordinary shares, 49.8 million warrants and RM82.8 million Irredeemable Convertible Unsecured Loan Stocks for a total consideration of approximately RM931.1 million. As a result, B-Land became a direct subsidiary of BGroup.

In the financial year ended 30 April 2003, the Group's interest in subsidiary, Berjaya Sports Toto Berhad was diluted making it an associated company of the Group.

Today, with a total employee strength of over 5,000, the Group's core activities are as follows:-

For the year ended 30 April 2006, the Group recorded a lower revenue of RM561.5 million compared to the RM668.9 million reported in the previous financial year primarily attributed to the full year effect of deconsolidation of Matrix International Berhad ("Matrix") in the financial year under review after the dilution of the Group's equity interest in Matrix effective 31 December 2004. Group pre-tax profit however increased slightly to RM149.2 million from RM140.6 million, driven largely by the higher share of results of associated companies, mainly Berjaya Sports Toto Berhad ("BToto") and lower exceptional losses.

### FUTURE OUTLOOK AND PROSPECTS

The tourism and property related sectors continue to remain as strong contributors towards the Malaysian economy. Supported by strong fundamentals, economic growth and solid internal and external demand, and further driven by rising household disposable income, the growth of private consumption and purchasing power is projected to record positive growth for 2006.

Given this backdrop and further underpinned by aggressive promotions in new and non-traditional markets undertaken by the Government particularly in West Asia, travel and tour agencies as well as the airlines, tourist arrivals are targeted to hit 17.5 million in 2006 (2005: 16.4 million est.) and 20 million in 2007. This augurs well for the Group's hotels and resorts as consequently, average hotel occupancy rates will continue to improve.

Recent data also indicates that the tourism sector will maintain its position as the second largest foreign exchange earner for the country and is expected to expand at a sustainable rate of 6% in 2006. In addition to the rising contribution from foreign tourists, domestic tourism is expected to benefit from the implementation of the five-day work week in the public sector.

The residential and non-residential subsectors are also envisaged to remain promising with demand for affordable housing and quality homes in strategic locations continuing to be strong. This combined with the rising percentage of a young working population will positively impact the take up rate of residential properties and this will positively impact the Group's bottom line.

Despite demanding market conditions facing the local timeshare industry, Berjaya Vacation Club continues to be resilient and is currently reorganizing its personnel composition into a leaner structure in a move that will increase its efficiency and effectiveness while simultaneously lowering operational costs.

Our gaming associate, BToto will continue to be a major contributor to our bottom line. BToto has grown to be the leading NFO operator in the country, capitalizing on its strong brand presence, variety of games offered and an extensive network of outlets. Moving forward, the introduction of its I-Perm game in September 2005, and continuous effort to actively cross sell between its games will enable BToto to obtain a bigger share of the market. An Account Betting System which will enable consumers to place bets via land lines, mobile phones and the internet will be introduced once approval from the relevant authorities have been obtained.

Barring any unforeseen circumstances, the Directors are optimistic that the Group's operating results will be satisfactory for the forthcoming financial year ending 30 April 2007.

#### **APPRECIATION**

On behalf of the Board of Directors, I would like to take this opportunity to thank the management, staff and agents for their dedicated service and loyalty towards the Group in the past year. My heartfelt appreciation also goes out to our shareholders, customers and business associates for their confidence and support. To our financiers and the government authorities, I thank them for their guidance and co-operation.

To all my fellow colleagues on the Board, I thank them for their counsel and invaluable dedication towards the Group.

I look forward to your continued support.

The Berjaya Hotels & Resorts ("BHR") Division profited from the generally positive business environment, enhanced sales efforts, innovative marketing strategies and aggressive promotional activities during the financial year ended April 2006.

BHR's occupancy rate increased by 9% and total revenue rose by 14% to RM241 million from RM221 million in the previous financial year.

Berjaya Times Square Hotel & Convention Center and Berjaya Langkawi Beach & Spa Resort achieved a better performance with improved occupancy and average room rate. However, the resorts in Seychelles recorded lower occupancy and room rates due to stiff competition and a reduction in inbound flights by major airlines, which consequently resulted in a 12% decline in revenue.

Overall, BHR did well and earnings before interest, depreciation and amortization (EBIDA) for the year under review improved by 20% to RM61 million. However, due to a one-time high provision for depreciation charge for operating equipment, operational profit declined by 7.6% when compared to the previous financial year.

During the year under review, Berjaya Langkawi Beach & Spa Resort completed the construction of 102 new premier land and water chalets. Today, the resort boasts a total of 502 rooms and continues to be the leading resort operator in Langkawi.

The construction of an additional 112 rooms at the Berjaya Redang Beach Resort was also recently completed and opened for reservation in April 2006. A further 18 suites are expected to be completed by end of the next financial year. In addition to its room extension programme, the resort also unveiled a new spa facility by Ayura Spa, a renowned spa operator that provides similar facilities at the Berjaya Langkawi Beach & Spa Resort and Berjaya Tioman Golf & Spa Resort.

Due to increasing pressures from high inflation rates that has caused a surge in raw material and energy costs, BHR has been careful to remain prudent and focused on cost containment measures at all levels of operation as it continuously strives for higher operating efficiency.

A significant amount of investment is being channeled towards upgrading and replacing the current computerized system to further improve and strengthen BHR's operational capabilities. To date, a new Property Management System (PMS) has been successfully implemented at Berjaya Tioman Golf & Spa Resort and Berjaya Times Square Hotel &

Convention Center. Work to update the system at the other resorts is currently under progress.

To further capture a bigger market segment, BHR has revamped and re-launched its website (www.berjayahotels-resorts.com) with booking engine capabilities to enhance the division's e-business capabilities.

An integrated marketing communication plan is in place to reinforce Berjaya Hotels & Resorts' branding and position in the local and regional markets. This includes new marketing tools such as corporate videos, multimedia CDs, revamp of marketing collaterals to reflect the company's logo change, public relations events and media plans for local and overseas markets focusing on its target markets and audiences.

#### **VACATION TIMESHARE**

For the financial year under review, Berjaya Vacation Club Berhad ("BVC") reported a revenue of RM31.93 million, down 23% from the previous financial year mainly due to a slow down in membership sales resulting from the general decrease in demand in the market place and the maturity stage of the Malaysian timeshare industry. In addition to that, there were fewer direct travel fairs organized during the financial year.

Despite the slowdown in the timeshare industry, BVC continued to add value to its members by expanding its affiliation network from 94 locations to 114 locations for the year under review. There are now a total of 41 local resorts and 73 resorts overseas. Popular new destinations include Indonesia and New Zealand.

BVC also continued to improve its services to members by launching a new telephone system in mid September 2005 which enables all incoming calls to be attended to faster, thus reducing the waiting time for callers.

For the coming year, BVC will be focusing more on staff development. Intensive on-going staff training and retraining will be provided to equip our personnel with the latest skills in customer service management in order to increase the efficiency and productivity of our Member Services team.

#### **CLUBS AND RECREATION**

During the financial year ended 30 April 2006, the Clubs and Recreation Division sold a total of 759 golf and non-golf memberships compared to 588 memberships sold in the previous financial year. Despite the higher recruitment, the Division's revenue was marginally lower than the last financial year attributed to the pricing strategy taken for non-golf membership to counter the stiff competition posed by other competitors. Total memberships as at the financial year end for all five golf and recreational clubs were 21,500 members, of which half are golf members. Berjaya Air flies to the isles of Redang, Tioman and Pangkor in Malaysia and abroad to Singapore, Indonesia and Thailand.

Looking ahead, membership recruitment is expected to be challenging due to growing competition. The Clubs and Recreation Division will continue to strive to improve its performance with innovative marketing campaigns and by maintaining a competitive pricing strategy in its membership drive.

#### **BERJAYA AIR SDN BHD**

Berjaya Air Sdn Bhd ("Berjaya Air") achieved a marginally higher revenue of RM28 million for the financial year ended 30 April 2006. The overall number of passengers rose to 109,381, representing an increase of 15% over the last financial year.

Berjaya Air's "Great Holiday Escapes" online DIY holiday packages have been well received since its inception on 15 February 2005. The "Great Holiday Escapes" promotion captured a larger segment of tourists travelling by air to popular destinations such as Koh Samui in Thailand, in addition to favourites such as the islands of Tioman, Redang and Pangkor.

Berjaya Air has also embarked on an exercise to secure an online booking and e-ticketing system which enables the company to reduce overhead costs and to provide booking flexibility to support its growing business requirements. The move will also prepare Berjaya Air to assimilate its ticketing system with global standards and also meet the December 2007 deadline set by the International Air Transport Association for the deployment of a paperless ticketing system.

#### **PROPERTY INVESTMENT**

The occupancy rates for the Group's investment properties for the financial year ended 30 April 2006, and comparative figures from 2005, were as follows:

	Occupancy Rates Financial Year		
Property	30 April 2006	30 April 2005	
KL Plaza, Kuala Lumpur	90%	92%	
Plaza Berjaya, Kuala Lumpur	87%	79%	
Kota Raya Complex, Kuala Lumpu	ır 92%	94%	
Berjaya Megamall, Kuantan	92%	93%	

For the year under review, the Group's complexes recorded increases in revenue and generally better occupancy rates. The increase in revenue was primarily derived from new tenancies secured and higher rental rates charged upon renewal. Additional income was also derived from service related activities such as promotional events and exhibitions held at common areas at the complexes and the increase in car park charges by Berjaya Megamall.

To date, 86% of units of the Kinrara Mas project have been sold.

Despite stiff competition from new shopping malls in the Klang Valley, the Group's complexes in the Klang Valley are all strategically located in the Golden Triangle and boasts premier addresses in addition to being easily accessible. The complexes will continue to offer competitive rental rates to maximize occupancy, enhance their image by introducing new store concepts and aggressively promoting themselves to further strengthen their presence in the marketplace. The management will also actively strive to publicise the complexes as choice locations for promotional activities and other crowd pulling events organized by both the public and private sectors.

#### **PROPERTY DEVELOPMENT**

For the financial year under review, the Property Division generated a sales value of RM185.5 million from the sale of property and the divestment of parcels of undeveloped land and investment properties.

Our land banks in Klang Valley remain the mainstay of our focus for the development of residential properties for the Property Division. During the financial year under review, the Property Division unveiled a number of projects at various strategic locations in and outside of the Klang Valley.

Located at the Bukit Jalil Golf & Country Resort, Phase 1 of **Savanna** comprising 204 units of condominiums at an average price of RM250,000 was launched. Limited to an exclusive 408 units in total, Savanna encompasses more than five acres of freehold land, with easy access to recreational facilities, commercial centers, entertainment and educational hubs. The built-up area of the units currently available range from 1,211 sq.ft. to 1,281 sq.ft., and each unit comes with 3 dedicated parking bays.

A four storey shop/apartment development project comprising 8 units of ground floor shops and 48 units of apartments on the upper floors were unveiled at **Kinrara Mas** in Taman Kinrara Seksyen 4. To date, 86% of the units have been sold, translating into a total sales value of RM5.6 million.

Launched in January 2006, **The Peak** is a low density development with just 88 bungalow lots located in the high-end enclave of Taman TAR. The development encompasses 66.709 acres of land and individual lot sizes ranging from 8,624 sq.ft. to 71,944 sq.ft., with selling prices starting at RM1.6 million. Outside the Klang Valley, more than 70% of the 48 units of bungalows at Puncak Banang have been sold to date.

Apart from the new launches, projects previously unveiled were re-introduced to prospective home buyers via weekend site launches, participation in property exhibitions and joint promotions with bankers/financiers. Consistent take up rates have been recorded on the exclusive bungalow land development at **Seputeh Heights** and **Cemerlang Heights** in particular.

Construction work on projects launched during the last financial year, such as the **Green Avenue** condominiums at Bukit Jalil and the **Petaling Indah** condominiums (Block B) along Jalan Sungai Besi have been completed. The Green Avenue condominiums have been handed over to purchasers, while Block B of the Petaling Indah condominiums will be handed over in the coming months.

#### **PROJECTS COMING ON-STREAM**

Another project at the **Bukit Jalil Golf & Country Resort** will be launched in the forthcoming year. Consisting of 53 units of 3-and 3-½ storey shop offices, the development covers 5.82 acres of land that is strategically located within an area populated by more than 600,000 people. This 6-block shop office project is anticipated to translate into a total sales revenue of RM80 million.

At **Berjaya Park, Shah Alam,** the final phase of landed residential properties will be launched in two stages in 2006. Phase 1 of Hazel comprising 110 units was launched in July 2006. Priced at an average of RM270,000 per unit, the total sales revenue expected to be earned for the entire sector is approximately RM29.7 million.

In **Taman Cemerlang, Gombak,** the Cemerlang View Condo project, a 12-storey condominium development comprising 144 units of medium cost condominiums will be launched in the 1st quarter of 2007. The units range from 932 sq.ft. to 965 sq.ft. will be priced from RM159,500 to RM164,000 per unit. A total of RM24 million in total sales revenue is expected from this development.

Be spoilt for choice with Cemerlang Heights' magnificent home designs.

The **Petaling Indah** Shop Office project has been planned as a commercial expansion to the Petaling Indah Condominium development. To be built on an area encompassing 9,965 sq.ft. of land, the project consists of 8 units of 3-storey shop offices with built-up areas ranging from 1,131 sq.ft to 1,168 sq.ft. With a population of more than 200,000 within close vicinity, these units will be sold on an en-block basis and are expected to bring in sales revenue of approximately RM5 million.

In the heart of Kuantan town, on 3.5 acres land diagonally opposite Berjaya Megamall, a commercial development comprising 37 units of 3-and 4-storey shop offices will be launched during the financial year ending April 2007. Strategically located along the main thoroughfare of Jalan Tun Ismail, each of these aesthetically welldesigned en-block shop offices are equipped with an individual lift for each unit and are expected to enjoy good take-up rates. Each en-block unit has a built-up area ranging from 3,300 sq.ft. to 9,500 sq.ft. At the average price of RM930,000 per unit, this project is forecasted to generate a total sales revenue of RM27.7 million.

#### MARKET OUTLOOK

For the year under review, the property market in the Klang Valley commenced with optimism, consolidated by mid-year and eventually ended on a softer note. The market was saturated with considerable focus on the higher-end residential sector which witnessed the launch of several high-end developments within the vicinity of the Kuala Lumpur city centre.

Property developers are bracing for a challenging year in 2006 amidst concerns of increases in interest rates, petrol prices as well as electricity and water tariffs. Rising land and construction costs are anticipated to further erode developers' profit margins. Nevertheless, given the strong economic fundamentals and stable economic growth projected at 6%, coupled with the country's growing young population, there will still be a steady demand for residential properties located in strategic locations.

Hazel at Berjaya Park will be the last phase of landed residential properties to be launched.

### ceo's review of operations

On the whole, the residential sector, the bastion of the property market, is expected to increasingly focus on factors such as location, conceptual innovation and branding in their bid to secure higher take-up rates. Developments in established locations, especially landed properties with reasonable pricing, innovative designs, lifestyle facilities and quality workmanship, are anticipated to do well.

Under the current scenario, we are optimistic about the future prospects of the property market and are confident that we will continue to improve on the current year's result moving forward. In line with this and as part of our efforts to expand our current land banks, the Group has acquired parcels of land in Bangkok, Thailand for a proposed mixed development project, in Penang for a proposed residential development venture and in Kuantan, Pahang for a proposed residential and commercial development projects as well as a land reclamation and mixed development project.

#### GAMING

#### Berjaya Sports Toto Berhad

Berjaya Sports Toto Berhad ("BToto") recorded a revenue of RM2.94 billion, an increase of 10%, and a higher pre-tax profit of RM571.9 million or 17.3% increase respectively for the financial year ended 30 April 2006, as compared to the previous financial year. In addition to the improved performance, the write back of an overprovision in taxation in prior years also resulted in an increase in profit attributable to shareholders by 41.5%.

The higher increase in pre-tax profit was mainly attributed to the improved performance of its principal subsidiary, Sports Toto Malaysia Sdn. Bhd. ("Sports Toto"), as well as gain on disposal of BToto's ICULS during the financial year.

An aerial view of Informatics' Singapore campus.

Sports Toto achieved an increase of 10.0% in revenue mainly attributed to two additional draws in the current year under review, strong sales from the Super 6/49 game which recorded its highest ever Jackpot of RM15.9 million in May 2005 and seven months' contribution from sales of the 4-Digit I-Perm game which was launched at the end of September 2005.

#### EDUCATION

#### Informatics Education Ltd.

Informatics Education Ltd. ("Informatics") established in 1983, has been listed on Singapore Stock Exchange since 1993. Informatics is a leading provider of higher education and training services via both traditional class room delivery, e-learning and flexi-learning (combination).

In 2004, B-Land took a strategic stake in Informatics and since then, with enhanced business network, Informatics continues to be a major life long learning player in the higher education and training industry. Presently, Informatics has 138 operations in 23 countries.

For the financial year ended 31 March 2006, through its operations restructuring, rationalization and consolidation, Informatics has managed to reduce its net loss by 68% to S\$22.8 million from a S\$71.3 million loss in the previous year. This translated into S\$11.4 million or 27% savings in staff cost and a S\$37.8 million or 45% reduction in other operating expenses.

Overall, the Informatics group operations in Singapore and Malaysia have stabilized and continued to improve. Its operations in Hong Kong and the United Kingdom recorded the best results in terms of both revenue and profit for the last five years. Even though the educational sector remains challenging, Informatics has successfully maintained its strong fundamentals across-the-board.

During the financial year, Informatics officially opened its new 600,000 sq. ft. campus at Science Centre Road in Singapore and at the same time, Informatics is doubling its effort in attracting more foreign students to this facility. Presently, Informatics is the private education organization in Singapore with the most number of international government scholars. Informatics has also expanded its network of strategic global alliances by signing three new Memoranda of Understanding with the Linguaphone Group, South Korea's Chang Shin College and Peking University's International Brand Federation. With the latest link-ups, Informatics has strong strategic partnerships and alliances with more than 22 renowned universities and educational institutions worldwide.

Moving forward, Informatics will continue to focus its effort on revenue growth by means of product development, new market penetration and strategic partnerships through its five business

drivers: (a) higher education programs within its existing global network of centres; (b) licensing its higher education programs to independent private institutions globally; (c) distributing its higher education program through its e-learning portal Purpletrain; (d) moving strongly into the growing professional and skills development, vocational and training business; and (d) reaching out to other global students (outside its franchise network of centres) through its subsidiary NCC Education (UK).

#### **FUTURE OUTLOOK**

Economic growth for the second half of the year is expected to remain satisfactory as the Government makes adjustments to absorb risks from high oil prices and inflationary pressures. Nevertheless, domestic demand is forecasted to remain resilient, sustained by higher household disposable income arising from firm commodity prices, improvements in the performance of the stock market and a stronger Ringgit. Given this backdrop, the overall outlook for the hotel and travel industry is expected to remain favourable in the current financial year.

In the coming months and all through next year, our domestic hotels and resorts will actively participate in the Visit Malaysia Year 2007 activities and are poised to benefit from the higher inflow of tourists. The BHR division will continue to focus on strengthening its marketing position, improving operational competitiveness, upgrading its properties and setting higher benchmarks for service standards, all of which form essential components in maintaining a competitive edge. The Timeshare Vacation Ownership market, on the other hand, is expected to slow down due to the maturity stage of the industry, general market conditions and adverse publicity in recent months. In view of such demanding market conditions, the company will be streamlining its staff force into a leaner structure in a move that will increase the efficiency and effectiveness of its operations.

The future outlook for the Property Division remains upbeat. With a wide product range that caters to all segments of the residential market, the division's diversification strategy has resulted in a wider market segment, making it possible for the division to cross sell and enable the different components to feed on one another.

The operating environment for legalized number forecast operators in Malaysia are highly regulated as they operate under strict Government policies and guidelines. In spite of this, the potential for growth remains strong as the industry is closely linked to consumer spending patterns and sentiments. The increasing crackdown on illegal number forecast operators by the authorities augurs well for the industry which views the illegal market as its main competitor. With Sports Toto's extensive network of outlets throughout the country and the broad variety of games offered, opportunities exist for the company to achieve further market penetration and tap the industry's revenue growth potential.

### statement on internal control

#### Responsibility

The Board of Directors of Berjaya Land Berhad ("BLand" or "the Group") recognises that it is responsible for the Group's system of internal control and for reviewing its adequacy and integrity. The Board's responsibility in relation to the system of internal control extends to all subsidiaries of the Group. Notwithstanding, due to the limitations that are inherent in any system of internal control, the Group's internal control system is designed to manage rather than eliminate the risk of failure to achieve business objectives. As such, the system can only provide reasonable but not absolute assurance against material misstatement or loss.

The Board's primary objective and direction in managing the Group's principal business risks are to enhance the Group's ability to achieve its business objectives. In order to measure the achievement of the business objectives, the Board monitors the Group's performance and profitability at its Board meetings and provides feedback to the Executive Directors.

In line with the Malaysian Code of Corporate Governance, and as part of the Company's plans to further enhance the Group's system of internal control, the Board tasked the Risk Management Committee ("RMC") with the overall responsibility to regularly review and monitor the risk management activities of the Group and to approve appropriate risk management procedures and methodologies. The members of the RMC are as follows:

- Tan Sri Dato' Thong Yaw Hong (Chairman)
- Dato' Robin Tan Yeong Ching
- Datuk Robert Yong Kuen Loke
- Khor Poh Waa
- Dato' Mohammed Adnan bin Shuaib
- Ng Sooi Lin (Alternate to Dato' Robin Tan Yeong Ching)

The RMC terms of reference include, inter alia:

- To ensure that the strategic context of risk management strategy is complete
- To determine the overall risk management processes
- To ensure that the short and long term risk management strategy, framework and methodology are implemented and consistently applied by all business units
- To ensure that risk management processes are integrated into all core business processes

- To establish risk reporting mechanism
- To ensure alignment and coordination of assurance activity across the organisation
- To act as a steering committee for the group wide risk management programme

For the financial year ended 30 April 2006, the RMC held two meetings where it reviewed the overall risk management framework and established the Risk Management Working Committee that will monitor the implementation of Risk Management policy within the BLand's Group of unlisted subsidiary companies. The RMC also evaluated the adequacy of risk management activities of the Property Division and the Leisure Division (as defined below) and recommended certain measures to be adopted to reduce thier business risk exposure.

#### **Management Style and Control Consciousness**

The Group's operations are divided into three main divisions:

- Vacation Timeshare, Hotels, Resorts and Recreation Development ("Leisure Division");
- Property Investment and Development ("Property Division"); and
- Gaming and Lottery Management ("Gaming Division").

Paramount to the Group's system of internal control is the role played by the Executive Directors as the channel of communication between the Board and Management. The Executive Directors who are assigned to manage the businesses of the Group implement the Board's expectations of the system of internal control.

The Executive Directors, together with their respective management team, attend various management and operations meetings and review financial and operations reports, in order to monitor the performance and profitability of the Group's businesses. The Group also prides itself in the "open-door" and "close-to-operations" policy practised by the Executive Directors and Management. Any matters arising are promptly and efficiently dealt with by drawing on the experience and knowledge of employees throughout the Group.

Both the Leisure and Property Divisions have in place stringent processes to ensure that employees understand the importance

of and adhere to the policies and procedures that are outlined in the respective divisions' system of internal control. Among such processes are the Daily Morning briefing meetings and customer feedback evaluation at the Leisure Division's hotels, and various Site and Project meetings with Consultants and the Tender Committee's review and recommendation of contractors at the Property Division.

The Group's Gaming Division operates through its associated companies, Berjaya Sports Toto Berhad ("BToto") and Matrix International Berhad ("Matrix"). The Board has a process in place whereby representatives of the Group sit on the Boards of BToto and Matrix respectively, to serve the Group's interests.

The Board does not regularly review the internal control system of its other associated companies although management accounts are provided for information, as the Board does not have any direct control over their operations.

#### Key Features of the Internal Control System

Some of the identified key features of the Group's system of internal control include:

- Timely financial and operations reports
- Scheduled operations and management meetings
- Standard operating procedures for the Leisure Division
- Clear organisation structure and delineated reporting lines
- Defined levels of authority
- Capable workforce with ongoing training efforts
- Formal employee appraisal system which enables appraisal of employees and rewarding employees based on performance
- Centralised procurement function that ensures approval procedures are adhered to, as well as to leverage on the Group's purchasing power
- Payment functions controlled at Head Office
- Independent assurance on the system of internal control from regular internal audit visits

#### Assurance Mechanism

The Board has assigned the Audit Committee with the duty of reviewing and monitoring the effectiveness of the Group's internal control. The Audit Committee receives assurance reports from both the internal and external auditors. The Internal Audit function furnishes the Audit Committee with reports from visits conducted at various operating units. The external auditors provide assurance in the form of their annual statutory audit of the financial statements. Further, any case for improvement identified during the course of the statutory audit by the external auditors are brought to the attention of the Audit Committee through management letters, or are articulated at Audit Committee meetings.

The Board also reviews the minutes of meetings of the Audit Committee. The Report of the Audit Committee is set out on pages 22 to 24 of the Annual Report.

The Board remains committed towards operating a sound system of internal control and therefore recognises that the system must continuously evolve to support the type of business and size of operations of the Group. As such, the Board, in striving for continuous improvement will put in place appropriate action plans, when necessary, to further enhance the Group's system of internal control.

#### **2 SIGNIFICANT ACCOUNTING POLICIES**

#### (a) Basis of Preparation

The financial statements of the Group and of the Company have been prepared under the historical cost convention unless otherwise indicated in the accounting policies below and comply with the provisions of the Companies Act, 1965 and applicable Approved Accounting Standards in Malaysia.

#### (b) Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Company and all its subsidiary companies made up to the end of the financial year.

Subsidiary companies are those entities controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. Subsidiary companies are consolidated using the acquisition method of accounting.

#### 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### (b) Basis of Consolidation (cont'd)

Under the acquisition method of accounting, the results of subsidiary companies acquired or disposed of during the financial year are included in the consolidated financial statements from the effective date of acquisition or up to the effective date of disposal, as appropriate. The assets and liabilities of a subsidiary company are measured at their fair values at the date of acquisition and these values are reflected in the consolidated balance sheet. The difference between the acquisition cost and the fair values of the Group's share of net assets of the acquired subsidiary company at the date of acquisition is included in the consolidated balance sheet as goodwill or negative goodwill arising from consolidation, as appropriate.

In the preparation of the consolidated financial statements, the financial statements of all subsidiary companies are adjusted for the material effects of dissimilar accounting policies. Intragroup transactions, balances and unrealised gains are eliminated on consolidation and the consolidated financial statements reflect external transactions only. Unrealised losses are eliminated on consolidation unless cost cannot be recovered.

Minority interests in the consolidated balance sheet consist of the minorities' share of fair value of the identifiable assets and liabilities of the acquiree as at acquisition date and the minorities' share of movements in the acquiree's equity since then.

#### (c) Associated Companies

Associated companies are companies in which the Group has a long-term equity interest and where it exercises significant influence over its financial and operating policies through Board representation. Investments in associated companies are accounted for in the consolidated financial statements by the equity method of accounting based on the latest audited or management financial statements of the associated companies made up to the Group's financial year-end.

Under the equity method of accounting, the Group's share of results of associated companies during the financial year is included in the consolidated financial statements. The Group's share of results of associated companies acquired or disposed of during the year, is included in the consolidated income statement from the date that significant influence effectively commences or until the date that significant influence effectively ceases, as appropriate.

Unrealised gains on transactions between the Group and the associated companies are eliminated to the extent of the Group's interest in the associated companies. Unrealised losses are eliminated unless cost cannot be recovered.

The Group's interest in associated companies is carried in the consolidated balance sheet at cost plus the Group's share of post-acquisition retained profits or accumulated losses and other reserves, less impairment losses.

#### (d) Property, Plant and Equipment and Depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses with the exception of hotel properties.

Hotel properties comprise hotel land, building and integral plant and machinery. It is the Group's practice to maintain these properties at a high standard and condition such that residual values are at least equal to book values and consequently, depreciation would be insignificant. Accordingly, no depreciation is provided on freehold hotel properties or those hotel properties with unexpired lease tenure of 50 years or more. The related maintenance expenditure is dealt with in the income statement.

To establish whether the residual values of the hotel properties are at least equal to their respective book values, all hotel properties are appraised by independent professional valuers at least once in every five years based on open market value. Where the residual values of the hotel properties are less than their respective book values, a write down of book values to its recoverable amounts will be made. The amount of reduction will be recognised as an expense in the income statement.

## notes to the financial statements

30 April 2006

#### 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### (d) Property, Plant and Equipment and Depreciation (cont'd)

Freehold land, long term leasehold land (with an unexpired lease period of 50 years or more) and capital work-in-progress are not depreciated. The Directors are of the opinion that the long term leasehold land has a residual value that will not be materially different from its cost. The depreciation charges are not expected to be material in view of its long useful life. Had the long term leasehold land been amortised over its useful life, there will be an additional depreciation charge of RM489,000 to the income statement. Short term leasehold land, if any, is amortised on a straight line basis over the remaining period of the lease. All other property, plant and equipment are depreciated over their estimated useful lives on a straight-line basis.

The annual rates used are:

Short leasehold hotel properties Short leasehold land and buildings	Over 50 years Over 50 years
	%
Buildings	1.25 - 2.5
Plant and equipment	10 - 33
Computer equipment	10 - 50
Renovation	10 - 25
Furniture and fittings	5 - 25
Office equipment	5 - 25
Motor vehicles	20 - 25
Aircraft	6.67
Golf course development expenditure	1.00 - 1.75
Others	10 - 25

Depreciation on assets under construction commences when the assets are ready for their intended use. Others comprise mainly linen, silverware, cutleries, kitchen utensils and recreational livestocks and apparatus.

#### (e) Investment Properties

Investment properties consist of land and buildings held for their investment potential and rental income. Investment properties are stated at cost less impairment losses and not subject to depreciation.

#### (f) Land Held for Development and Property Development Costs

#### (i) Land held for development

Land held for development consists of land where no development activities have been carried out or where development activities are not expected to be completed within the normal operating cycle. Such land is classified within non-current assets and is stated at cost less any accumulated impairment losses. Freehold land is not amortised. Short term leasehold land is amortised on a straight-line basis over the remaining period of the lease of 14 years.

Land held for property development is reclassified as property development costs at the point when development activities have commenced and where it can be demonstrated that the development cycle can be completed within the normal operating cycle.

#### 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### (f) Land Held for Development and Property Development Costs (cont'd)

#### (ii) Property development costs

Property development costs comprise all costs that are directly attributable to development activities or that can be allocated on a reasonable basis to such activities.

When the financial outcome of a development activity can be reliably estimated, property development revenue and expenses are recognised in the income statement by using the stage of completion method. The stage of completion is determined by the proportion that property development costs incurred for work performed to date bear to the estimated total property development costs.

When the financial outcome of a development activity cannot be reliably estimated, property development revenue is recognised to the extent of property development costs incurred that is probable of being recovered, and property development costs on properties sold are recognised as an expense in the period in which they are incurred.

Any expected loss on a development project, including costs to be incurred over the defects liability period, is recognised as an expense immediately.

Property development costs that are not recognised as an expense are recognised as an asset, which is measured at the lower of cost and net realisable value.

The excess of revenue recognised in the income statement over billings to purchasers is classified as accrued billings within receivables and the excess of billings to purchasers over revenue recognition in the income statement is classified as progress billings within payables.

#### (g) Investments in Subsidiary and Associated Companies

The Company's investments in subsidiary and associated companies are stated at cost less impairment losses.

#### (h) Intangible Assets

Goodwill on consolidation represents the difference between the purchase price over the fair value of the net assets of the investment in subsidiary and associated companies at the date of acquisition less proportionate amounts written off for subsequent disposals of these investments. Positive goodwill is retained in the consolidated balance sheet at cost less impairment losses. Negative goodwill is shown as a deduction from the positive goodwill on consolidation of the Group.

Goodwill arising on the acquisition of subsidiary companies is presented separately in the balance sheet while goodwill arising on the acquisition of associated companies and jointly controlled entities is included within the carrying amount of investments in associated companies and investments in jointly controlled entities respectively.

Goodwill or negative goodwill is not amortised. Goodwill is reviewed at each balance sheet date and will be written down for impairment when it is considered necessary.

#### (i) Inventories

Inventories comprise stores and consumables which are stated at the lower of cost and net realisable value. Cost is determined on a first-in first-out basis.

Property inventories are stated at the lower of cost and net realisable value. Cost includes the relevant cost of land, development expenditure and related interest cost incurred during the development period.

## notes to the financial statements

30 April 2006

#### 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### (i) Inventories (cont'd)

Net realisable value represents the estimated selling price less all estimated costs to be incurred in marketing, selling and distribution.

#### (j) Leases

(i) Finance leases and hire purchase arrangements

Assets acquired by way of hire purchase or finance leases are stated at an amount equal to the lower of their fair values and the present value of the minimum lease payments at the inception of the leases, less accumulated depreciation and impairment loss. The corresponding liability is included in the balance sheet as liabilities. In calculating the present value of the minimum lease payments, the discount factor used is the interest rate implicit in the lease, when it is practical to determine; otherwise, the Company's incremental borrowing rate is used. Lease payments are apportioned between the finance costs and the reduction of the outstanding liability. Finance costs, which represent the difference between the total leasing commitments and the fair value of the assets acquired, are recognised as an expense in the income statement over the term of the relevant lease so as to produce a constant periodic rate of charge on the remaining balance of the obligations for each accounting period. The depreciation policy for leased assets is similar with that for depreciable property, plant and equipment as described in Note 2(d).

(ii) Operating leases

Operating leases are leases other than finance lease. Lease rental under operating lease is charged to income statement on a straight-line basis over the term of the relevant lease.

#### (k) Employee benefits

(i) Short term benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees of the Group. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

(ii) Defined contribution plans

Contributions relating to defined contribution plans are charged to the income statement when incurred. Retirement benefits for employees of foreign subsidiary companies are accrued for in accordance with the provisions of those foreign countries' retirement law and are charged to income statement in the period to which they relate.

(iii) Defined benefit plans

Certain subsidiary companies within the Group operate unfunded, defined benefit Retirement Benefit Schemes ("the Scheme") for their eligible employees. The Group's obligations under the Scheme are calculated using the Projected Unit Credit Method determined based on actuarial computations by independent actuaries, through which the amount of benefit that employees have earned in return for their service in the current and prior years is estimated. That benefit is discounted in order to determine its present value. Actuarial gains and losses are recognised as income or expense over the expected average remaining working lives of the participating employees when the cumulative unrecognised actuarial gains or losses for the Scheme exceed 10% of the present value of the defined benefits obligation. Past service costs are recognised immediately to the extent that the benefit are already vested, and otherwise is amortised on a straight-line basis over the average period until the amended benefits become vested.

#### 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### (k) Employee benefits (cont'd)

#### (iii) Defined benefit plans (cont'd)

The amount recognised in the balance sheet represents the present value of the defined benefit obligations adjusted for unrecognised actuarial gains and losses and unrecognised past service cost.

#### (I) Income Taxes

Tax on profit or loss for the year comprises current and deferred tax. Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of the previous year.

Deferred tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax is not recognised on temporary differences arising from goodwill not deductible for tax purposes and the initial recognition of assets or liabilities that at the time of transaction affects neither accounting nor taxable profit.

The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

Deferred tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity, or when it arises from a business combination that is an acquisition, in which case the deferred tax is included in the resulting goodwill or negative goodwill.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

#### (m) Foreign Currencies

Transactions in foreign currencies are recorded in Ringgit Malaysia at rates of exchange ruling at the transaction dates or, where settlement had not taken place at 30 April, at rates of exchange ruling at the date or at contracted rates, as applicable. Exchange differences arising on long term inter-company advances that, in substance, form part of an enterprise's net investment in a foreign subsidiary are taken directly to an exchange reserve account. All other exchange differences arising are dealt with through the income statement.

Assets (including goodwill) and liabilities and trading results of foreign subsidiaries are translated into Ringgit Malaysia at the approximate rates of exchange ruling at the balance sheet date except for share capital which is included at historical rate. All exchange differences on translation are taken directly to an exchange reserve account.

#### (n) Provisions for Liabilities

Provisions for liabilities are recognised when the Group has a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations, and a reliable estimate of the amount can be made. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the amount of provision is the present value of the expenditure expected to be required to settle the obligation.

#### (o) Impairment of Assets

At each balance sheet date, the Group reviews the carrying amounts of its assets other than inventories, receivables, other noncurrent investments and marketable securities, to determine whether there is any indication of impairment. If any such indication exists, impairment is measured by comparing the carrying values of the assets with their recoverable amounts. Recoverable amount is the higher of net selling price and value in use, which is measured by reference to discounted future cash flows.

An impairment loss is recognised as an expense in the income statement immediately. Reversal of impairment losses recognised in prior years is recorded when the impairment losses recognised for the asset have decreased.

#### (p) Financial Instruments

Financial instruments are recognised in the balance sheet when the Group has become a party to the contractual provisions of the instrument.

#### (i) Other Non-Current Investments

Non-current investments comprise quoted and unquoted securities, bonds and warrants but exclude investments in subsidiary and associated companies.

Other non-current investments are stated at cost less accumulated impairment losses. Such impairment is made when there is a decline, other than temporary, in value of investments and it is recognised as an expense in the period in which the decline occurred.

#### 2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### (p) Financial Instruments (cont'd)

#### (ii) Receivables

Trade and other receivables are carried at anticipated realisable value. All known bad debts are written off while doubtful debts are provided for based on estimates of possible losses that may arise from non-collection.

#### (iii) Payables

Trade and other payables are stated at cost which is the fair value of the consideration to be paid in the future for goods and services received.

#### (iv) Interest-Bearing Borrowings

Interest-bearing bank loans and overdrafts are recorded at the amount of proceeds received.

Borrowing costs directly attributable to the acquisition, construction or production of assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale is capitalised as part of the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. The amount of borrowings costs eligible for capitalisation is determined by applying a capitalisation rate which is the weighted average of the borrowing costs applicable to the Group's borrowings that are outstanding during the year, other than borrowings made specifically for the purpose of obtaining another qualifying asset.

For borrowings made specifically for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation is the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of that borrowing.

All other borrowing costs are recognised as an expense in the income statement in the period in which they are incurred.

#### (v) 5% Irredeemable Convertible Unsecured Loan Stocks 1999/2009 ("ICULS 1999/2009")

Arising from the above and as permitted under the transitional provision of FRS 132<sub>2004</sub>: Financial Instruments: Disclosure and Presentation, the ICULS 1999/2009 component parts have not been classified separately and accordingly have been classified as long term liabilities.

#### (vi) Equity Instruments

Ordinary shares are classified as equity. Dividends on ordinary shares are recognised in equity in the period in which they are approved for payment.

### 22 5% IRREDEEMABLE CONVERTIBLE UNSECURED LOAN STOCKS ("ICULS 1999/2009") (CONT'D)

- (c) The interest on the ICULS 1999/2009 is payable semi-annually in arrears.

ICULS 1999/2009 were issued pursuant to a Debt Conversion exercise undertaken by the Company and completed on 31 December 1999. The Company granted a put option to certain financial institutions ("FIs") to purchase 100% of the ICULS 1999/2009 issued to the FIs or such number of ICULS 1999/2009 remaining with the FIs respectively after the offer for their sale. The put option is exercisable at any time during a period of 7 days each beginning on the second anniversary from the date of the grant of the put option with successive periods at half-yearly intervals until the termination of the put option which shall occur on the seventh day after the fifth anniversary of its grant.

The FIs contemporaneously granted a call option to sell to BGB 100% of the ICULS 1999/2009 issued or any such number of ICULS 1999/2009 remaining with the FIs after the offer for their sale, exercisable at any time within 5 years from the date of the grant of the call option on the ICULS 1999/2009.

BGB had assumed the said put option ("BGB Put Option") on the same terms and conditions and the FIs have agreed to grant its call option to BGB.

BGB has informed the Company that it would not be able to meet its obligation pursuant to the BGB Put Option. The Company made arrangements for its wholly owned subsidiary company, Immediate Capital Sdn Bhd, to fulfil the put options which were financed by internally generated funds and external borrowings. BGB has undertaken to indemnify the Group all costs incurred in relation to any fundings obtained to fulfil the put options.

Based on the actual holding costs incurred/deemed incurred in respect of 797,241,290 ICULS 1999/2009 by the Company up to 31 December 2004 (being the expiry date of the BGB Put Option), the compensation has as such been determined to be RM226,891,428. On 14 December 2005, BGB compensated the Company through the release of the Company's obligation to distribute 576,304,227 BCorp ICULS to BGB pursuant to the Company's distribution of BCorp ICULS to its shareholders as explained in Note 39(7) to the financial statements. In addition, the total net financing costs incurred by the Company up to 31 December 2004 to take up these ICULS 1999/2009 amounted to RM24.590 million and have been included in the amount due from penultimate holding company, BGB, as disclosed in Note 12 to the financial statements.

At 30 April 2006, the Company has resolved the acceptance of the remaining 255,170,602 ICULS 1999/2009 under the put options with certain FIs lenders through extension of the put options and/or via obtaining new loans for the acceptance of the put options.

### (f) Fair Values

		GROUP		COMPANY	
		Carrying amount RM'000	Fair value RM'000	Carrying amount RM'000	Fair value RM'000

ICULS 1999/2009	- 30 April 2006	310,359	330,922	852,430	642,613
	- 30 April 2005	434,538	495,448	893,005	749,897

The fair value of the portion of quoted ICULS 1999/2009 under put option granted to certain financial institutions is determined by the present value of the estimated future cash outflow at the end of the extended put option period. The fair value of the rest of the quoted ICULS 1999/2009 is determined by reference to stock exchange quoted market bid prices at the close of the business on the balance sheet date.

The fair value of non-current quoted investments as disclosed in Notes 7 and 8 to the financial statements is determined by reference to stock exchange quoted market bid prices at the close of the business on the balance sheet date.

The carrying value of the Group and of the Company's borrowings, which are mainly variable rate borrowings, is considered to be a reasonable estimate of the fair values as the borrowings will be repriced immediately in the event of any changes to the market interest rates.

The carrying amounts of cash and cash equivalents, trade and other receivables, trade and other payables and short term borrowings approximate their fair values due to the relatively short term nature of these financial instruments.

It is not practical to estimate the fair values of the Group's and of the Company's non-current unquoted investments because of the lack of quoted market prices and the inability to estimate the fair value without incurring excessive costs.

It is also not practical to estimate the fair values of amounts due from/to penultimate holding, subsidiary, related and associated companies due principally to a lack of fixed repayment term entered by the parties involved and without incurring excessive costs. However, the Directors do not anticipate the carrying amounts at balance sheet date to be significantly different from the values that would eventually be received or settled.

The carrying values of all other financial assets and liabilities including contingent liabilities as disclosed in Note 34 to the financial statements as at 30 April 2006 are not materially different from the fair values.

30 April 2006

### 39 SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR (CONT'D)

GMOC which is principally involved in property development and investment, is currently contemplating to undertake a mixed development project comprising retail, entertainment, theme park and water park located at Yanjiao Development & Economic Tech, Sanhe City, Hebei Province, People's Republic of China.

Subsequently, on 7 April 2006, the Company announced that GMOC had received the approval from National Development Reform Committee of Central Government, China for its Great Mall Project subject to GMOC increasing its registered capital to RMB890.0 million (about RM414.0 million) payable within 3 years from the current registered capital of approximately RMB98.0 million (about RM45.6 million). In view of the aforementioned requirement, BLCL's proposed 51% subscription in GMOC will also increase from RMB33.3 million to RMB453.9 million or equivalent to approximately RM211.1 million ("Proposed Revision").

The Proposed Subscription is now subject to the approvals being obtained from the Administration of Commerce and Industry Authority, China and the Ministry of Commerce of the People's Republic of China. In addition, the Proposed Revision is also subject to approval being obtained from the shareholders of the Company. The approval from Bank Negara Malaysia for the remittance of funds was obtained on 2 May 2006.

7 In 1999, pursuant to a debt conversion exercise, the Company entered into several put option agreements ("Put Options") with financial institutions ("FIs") wherein the FIs are entitled to put to the Company the ICULS 1999/2009 at a pre-determined option price for a period of 3 years commencing from 31 December 2001. BGB had agreed with the Company to assume the put options ("BGB Put Option"). However, BGB later informed the Company that it would not be able to meet its obligation. In view of this, the Company had made arrangements to finance the Put Options with internally generated funds and external borrowings. The Company had also arranged for Immediate Capital Sdn Bhd, a wholly owned subsidiary company of the Company, to take up the Put Options. BGB had undertaken to indemnify the Company and /or its subsidiary companies for all costs incurred in relation to any funding obtained to fulfil the Company's obligations under the BGB Put Option. Notwithstanding the BGB's proposal to indemnify the Company for its failure to assume the BGB Put Option.

BGB and the Company had previously proposed to offer the ICULS 1999/2009 under the Put Options to the shareholders of BGB and the Company. However, the low market price of the ICULS 1999/2009 precludes the successful implementation of the proposal.

Based on the actual holding costs incurred/deemed incurred in respect of 797,241,290 ICULS 1999/2009 by the Company up to 31 December 2004 (being the expiry date of the BGB Put Option), the compensation had as such been determined to be RM226,891,428 through the release of the Company's obligation to distribute 576,304,227 BCorp ICULS to BGB pursuant to the Company's distribution of BCorp ICULS to its shareholders via a capital repayment. In addition, the total net financing costs incurred by the Company up to 31 December 2004 to take up these ICULS 1999/2009 amounted to RM24.590 million and have been included in the amount due from penultimate holding company, BGB as disclosed in Note 12 to the financial statements.

- 8 The Company had completed the following proposals:
  - i) the settlement of inter-company balance by BCorp on behalf of BGB amounting to RM1,617,585,000 through the issuance of 4,108,666,000 new BCorp ICULS on 23 December 2005;
  - ii) bonus issue of 890,323,360 new ordinary shares of RM1.00 each, credited as fully paid-up, on the basis of one new share for every one share held on 13 December 2005 which was allotted on 14 December 2005 ("1st Bonus Issue");
  - iii) capital repayment and consolidation which comprised the following were completed on 14 December 2005:
    - capital repayment pursuant to Section 64 of the Companies Act, 1965 of RM0.80 for every share held after 1st Bonus Issue via the distribution of BCorp ICULS; and
    - consolidation of five ordinary shares of RM0.20 each held after the capital repayment mentioned above into one ordinary share of RM1.00 each;
  - iv) bonus issue of 534,194,016 new ordinary shares of RM1.00 each, credited as fully paid-up, on the basis of three new shares for every two shares held immediately after the 1st Bonus Issue and capital repayment and consolidation allotted on 15 December 2005; and
  - v) a special dividend-in-specie, of 65% gross less 28% income tax from the remaining BCorp ICULS held by the Company upon completion of the capital repayment and compensation received from BGB in respect of termination of BGB Put Option.

### 39 SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR (CONT'D)
