- (j) In compliance with Paragraph 15.16 of the Main Market Listing Requirements of BMSB ("Main Listing Requirements"), where the Committee is of the view that a matter reported by it to the Board has not been satisfactorily resolved resulting in a breach of the Main Listing Requirements, the Committee must promptly report such matter to BMSB.

Statement on Corporate Governance

The Board of Directors (“Board”) of Berjaya Sports Toto Berhad (“the Company”) is committed to ensure an appropriate and sound system of corporate governance is being practised throughout the Company and its subsidiaries in ensuring continuous and sustainable growth for the interests of all its shareholders. The Company and its subsidiaries have maintained the standard of corporate governance by supporting and implementing the prescribed principles and best practices set out in the Malaysian Code of Corporate Governance (Revised 2007) (“the Code”). Under the Main Market Listing Requirements of Bursa Malaysia Securities Berhad (“Bursa Securities”), listed companies are required to state the extent of such compliance or provide alternative measures in areas where there are deviations from the principles and/or best practices.

The Board is pleased to provide the following statement which outlined how the Group had applied the principles laid down in the Code.

A) DIRECTORS

i) The Board

The Company is led by a sound and experienced Board. The Board is primarily responsible for the strategic direction of the Group.

The Board meets regularly on a quarterly basis with additional meetings being convened as necessary. For the financial year ended 30 April 2009, the Board met four (4) times. The record of attendance for the Directors who held office as at the end of the financial year is set out below:-

Directors	Attendance
Tan Sri Dato’ Thong Yaw Hong #	4/4
Dato’ Robin Tan Yeong Ching	4/4
Chan Kien Sing	4/4
Freddie Pang Hock Cheng	4/4
Rayvin Tan Yeong Sheik	4/4
Seow Swee Pin	4/4
Datuk Robert Yong Kuen Loke	4/4
Tan Sri Dato’ Jaffar Bin Abdul # (Demised on 1 September 2009)	4/4
Mohamed Saleh Bin Gomu #	4/4
Tan Sri Dato’ Tan Chee Sing (Appointed on 15 April 2009)	*

Denotes Independent / Non-Executive Director

* - Tan Sri Dato’ Tan Chee Sing had been appointed as an additional Non-Independent Non-Executive Director of the Company on 15 April 2009. There was no Board meeting held subsequent to the date of his appointment.

In the intervals between Board meetings, for exceptional matters requiring urgent Board decisions, Board approvals are sought via circular resolutions which are attached with sufficient and relevant information required for an informed decision to be made.

ii) Board Balance

There are presently nine (9) Board members in Berjaya Sports Toto Berhad comprising:-

- The Chairman (who is Independent Non-Executive)
- The Chief Executive Officer
- Four Executive Directors
- Two Non-Independent Non-Executive Directors
- One Independent Non-Executive Director

Following the demise of the Independent Non-Executive Director, Tan Sri Dato’ Jaffar Bin Abdul on 1 September 2009, the Board composition of the Company is currently not in compliance with Paragraph 15.02 of the Main Market Listing Requirements of Bursa Securities that requires one-third of the Board members to be independent directors. The Board of Directors will identify a suitable replacement in order to comply with the above requirement.

The qualifications and experience of each of the Director are set out in the Directors’ profile on Page 3 to Page 7 of the Annual Report.

The Board is satisfied with its composition which comprises a balanced mix of skills, knowledge, technical and management expertise which are relevant to enable the Board to carry out its responsibilities in an effective and competent manner.

There is a clearly accepted division of responsibilities between the Chairman and Chief Executive Officer to ensure a balance of power and authority.

The Chairman is responsible for ensuring Board effectiveness and standards of conduct. He has authority over the agenda for each Board meeting to ensure that all Directors are provided with relevant information on a timely basis. The general agenda may include minutes of previous meetings of the Board and its sub-committees, quarterly financial results of the Group, issues requiring the Board’s deliberation and approval, reports or briefings on operational and financial issues of major subsidiaries and other ad-hoc reportings.

The Chief Executive Officer has overall responsibility for the Group’s business operations, organisational effectiveness and the implementation of Board policies and decisions.

Tan Sri Dato’ Thong Yaw Hong has been identified as the Senior Independent Non-Executive Director of the Board to whom concerns may be conveyed.

Statement on Corporate Governance

iii) Supply of Information

All Directors have full and timely access to information concerning the Company and the Group whether as full Board or in their individual capacities. Board papers and reports include the Group performance and major operational, financial and corporate information are distributed to the Directors prior to Board Meetings and to enable Directors to obtain further clarifications and/or explanation, where necessary, in order to be properly briefed before the meeting.

All Directors have access to the advice and services of the Company Secretary and the senior Management staff in the Group and may obtain independent professional advice at the Company's expense in furtherance of their duties.

iv) Nomination Committee

The Nomination Committee currently comprise the following members:-

Tan Sri Dato' Thong Yaw Hong
Chairman/Senior Independent Director

Mohamed Saleh Bin Gomu
Independent/Non-Executive

Datuk Robert Yong Kuen Loke
Non-Independent/Non-Executive

The Committee is empowered by its terms of reference and its primary function is to recommend to the Board, candidates for directorships of the Company and its subsidiaries and Directors to fill the seats on Board Committees.

The Committee will review the required mix of skills and experience of the Directors of the Board, in determining the appropriate Board balance and size of the non-executive participation.

v) Directors' Training

All the Directors have attended the Mandatory Accreditation Programme as prescribed by Bursa Securities.

The Directors are mindful that they should continually attend seminars and courses to keep abreast with developments in the market place as well as new regulations and statutory requirements.

The Directors are also encouraged to evaluate their own training needs on a continuous basis and to determine the relevant programmes, seminars, briefings or dialogues available that would best enable them to enhance their knowledge and contributions to the Board.

D) ACCOUNTABILITY AND AUDIT

i) Financial Reporting

The Directors aim to provide a balanced and meaningful assessment of the Group's financial performance and prospects, primarily through the annual report and quarterly financial statements.

The Directors are also responsible for ensuring the annual financial statements are prepared in accordance with the provisions of the Companies Act, 1965 and the applicable Financial Reporting Standards in Malaysia.

A statement by the Directors of their responsibilities in the preparation of financial statements is set out in the ensuing section.

ii) Statement of Directors' Responsibility in respect of the Financial Statements

Company Law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and of the Group and of the results and cash flows of the Company and of the Group for that period. In preparing those financial statements, the Directors are required to:-

- (a) select suitable accounting policies and then apply them consistently;
- (b) state whether applicable financial reporting standards have been followed, subject to any material departures being disclosed and explained in the financial statements;
- (c) make judgements and estimates that are reasonable and prudent; and
- (d) prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and of the Group and which will enable them to ensure that the financial statements comply with the Companies Act, 1965. The Directors are also responsible for safeguarding the assets of the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

iii) Internal Control

The Board acknowledges that it is responsible for maintaining a sound system of internal controls, which provides reasonable assessment of effective and efficient operations, internal financial controls and compliance with laws and regulations as well as with internal procedures and guidelines. A Statement on Internal Control of the Group is set out on Page 28 of the Annual Report.

iv) Relationship with the auditors

Through the Audit Committee, the Company has established a transparent and appropriate relationship with the Group's auditors, both internal and external. From time to time, the auditors highlight to the Audit Committee and the Board on matters that require the Board's attention.

In addition, the external auditors were invited to attend the Company's AGM in order to address clarifications sought pertaining to the Audited Financial Statements by shareholders.

E) COMPLIANCE WITH THE CODE

The Board is satisfied that the Company has, in all material aspects, complied with the best practices of the Code during the financial year ended 30 April 2009.

Statement on Internal Control

The Board of Directors of Berjaya Sports Toto Berhad (“BTOTO” or “the Group”) recognises that it is responsible for the Group’s system of internal control and for reviewing its adequacy and integrity. Notwithstanding that, in view of the limitations that are inherent in any system of internal control, the Group’s system can only provide reasonable but not absolute assurance against material misstatement or loss, as it is designed to manage rather than eliminate the risk of failure to achieve business objectives.

The Board’s primary objective and direction in managing the Group’s principal business risks are to enhance the Group’s ability to achieve its business objectives. In order to achieve these objectives, the Board has identified, evaluated and managed the significant risks being faced by the Group by monitoring the Group’s performance and profitability at its Board meetings. The management of the Group as a whole is assigned to the Executive Directors.

A Risk Management Committee (“RMC”) has been established by the Company with the intention to further enhance the Group’s system of internal control and be in line with the Malaysian Code of Corporate Governance. The RMC together with the audit committee are entrusted to ensure more effective and efficient identification, evaluation, management and reporting of the Group’s risks. During the financial year ended 30 April 2009, the RMC held 4 meetings to review the reports tabled by the Risk Management Working Committee (“RMWC”) consisting of all heads of departments of the principal subsidiary company. The RMC had evaluated and monitored the progress of any risk factors and internal control matters relating to the operations raised by the RMWC. The members of the RMC as at 30 April 2009 were Tan Sri Dato’ Thong Yaw Hong (Chairman), Tan Sri Dato’ Jaffar bin Abdul, Mohamed Saleh bin Gomu, Datuk Robert Yong Kuen Loke and Seow Swee Pin.

The RMC terms of reference include, inter alia:

- To determine the overall risk management processes;
- To establish effectiveness of risk management process;
- To ensure that the strategic context of the risk management strategy is complete;
- To ensure that risk management processes are integrated into all core business processes;
- To establish risk reporting mechanism;
- To establish business benefits;
- To ensure that the short and long term risk management strategy, framework and methodology are implemented and consistently applied by all business units;
- To ensure alignment and coordination of assurance activity across the organization; and
- To act as steering committee for the group wide risk management programme.

The Board has assigned the Audit Committee with the duty of reviewing and monitoring the effectiveness of the Group’s system of internal control. The Audit Committee receives assurance reports from the internal auditors on findings from their visits to the operating units, as well as from the external auditors on areas for improvement identified during the course of their statutory audit. The Board reviews the minutes of the Audit Committee’s meetings. The Report of the Audit Committee is set out on pages 22 to 23 of the Annual Report.

The various scheduled management meetings and the review of financial and operations reports coupled with the ‘close to operations’ policy being practised by the Executive Directors and management provide the platform for timely identification of the Group’s risks and systems to manage those risks. The Executive Directors update the Board on any significant matters which require the latter’s attention.

The management of the Group’s individual operating units is assigned to local management who are accountable for the conduct and performance of their businesses within the agreed business strategy. At Sports Toto Malaysia Sdn Bhd, the Group’s principal subsidiary company, operations are divided into regions and areas due to dispersed locations of agents’ outlets. Regional and area offices are staffed by experienced personnel to ensure that the operations of the outlets are well controlled and in line with the operating procedures. Similarly, the overseas operations, namely Prime Gaming Philippines, Inc. group and International Lottery & Totalizator Systems, Inc. group are being managed by experienced personnel in their respective country offices. Regular reporting on performance of their businesses are provided to the Executive Directors of BTOTO who are assigned to manage the respective overseas operations. In addition, the Executive Directors in charge also made field visits to these overseas operations as well as to conduct periodic performance review meetings with the management personnel, thus ensuring the business plans and targets are met.

BTOTO’s system of internal control comprise the following key features:

- Clear organisation structure with defined reporting lines;
- Capable workforce with clear job descriptions, and continuous training efforts;
- Monitoring mechanisms in the form of financial and operations reports, and scheduled management meetings;
- Formal employee appraisal system which enables appraisal of employees and rewarding employees based on performance;
- Formal operating and draw procedures which set out the expected standards for its operations;
- Surprise checks on agents to ensure compliance with the Group’s policies and procedures;
- Physical security and systems access controls;
- Independent assurance on the system of internal control from regular internal audit visits;
- Business continuity planning; and
- Succession planning to ensure that key positions in the Group are always being held by capable employees who are well aware of the Group’s risks, and operating policies and procedures.

The Board remains committed towards operating a sound system of internal control and therefore recognises that the system must continuously evolve to support the type of business and size of operations of the Group. As such, the Board, in striving for continuous improvement will put in place appropriate actions plans, when necessary, to further enhance the Group’s system of internal control.

Directors' Report

for the year ended 30 April 2009

OTHER STATUTORY INFORMATION

- (a) Before the balance sheets and income statements of the Group and of the Company were made out, the Directors took reasonable steps:
- (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of provision for doubtful debts and satisfied themselves that there were no known bad debts and that adequate provision had been made for doubtful debts; and
 - (ii) to ensure that any current assets which were unlikely to realise their values as shown in the accounting records in the ordinary course of business had been written down to an amount which they might be expected so to realise.
- (b) At the date of this report, the Directors are not aware of any circumstances which would render:
- (i) it necessary to write off any bad debts or the amount of the provision for doubtful debts in these financial statements of the Group and of the Company inadequate to any substantial extent; and
 - (ii) the values attributed to current assets in the financial statements of the Group and of the Company misleading.
- (c) At the date of this report, the Directors are not aware of any circumstances which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.
- (d) At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.
- (e) At the date of this report, there does not exist:
- (i) any charge on the assets of the Group or of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; or
 - (ii) any contingent liability of the Group or of the Company which has arisen since the end of the financial year.
- (f) In the opinion of the Directors:
- (i) no contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Group or of the Company to meet their obligations as and when they fall due; and
 - (ii) no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group or of the Company for the financial year in which this report is made.

SIGNIFICANT EVENTS AFTER THE FINANCIAL YEAR

Independent Auditors' Report

To The Members Of Berjaya Sports Toto Berhad (Incorporated in Malaysia)

Report on the financial statements

We have audited the financial statements of Berjaya Sports Toto Berhad, which comprise the balance sheets as at 30 April 2009 of the Group and of the Company, and the income statements, statements of changes in equity and cash flow statements of the Group and of the Company for the year then ended, and a summary of significant accounting policies and other explanatory notes, as set out on pages 38 to 90.

Directors' responsibility for the financial statements

The directors of the Company are responsible for the preparation and fair presentation of these financial statements in accordance with Financial Reporting Standards and the Companies Act, 1965 in Malaysia. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements have been properly drawn up in accordance with Financial Reporting Standards and the Companies Act, 1965 in Malaysia so as to give a true and fair view of the financial position of the Group and the Company as at 30 April 2009 and of their financial performance and cash flows of the Group and of the Company for the year then ended.

Report on other legal and regulatory requirements

In accordance with the requirements of the Companies Act, 1965 in Malaysia, we also report the following:

- (a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Company and its subsidiaries of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.
- (b) We have considered the accounts and the auditors' reports of all the subsidiaries of which we have not acted as auditors, which are indicated in Note 4 to the financial statements.
- (c) We are satisfied that the accounts of the subsidiaries that have been consolidated with the financial statements of the Company are in form and content appropriate and proper for the purposes of the preparation of the consolidated financial statements and we have received satisfactory information and explanations required by us for those purposes.
- (d) The auditors' reports on the accounts of the subsidiaries were not subject to any qualification material to the consolidated financial statements and did not include any comment required to be made under Section 174(3) of the Companies Act, 1965.

The Company is a public limited liability company, incorporated and domiciled in Malaysia and is listed on the Main Market of Bursa Malaysia Securities Berhad. The registered office of the Company is located at Lot 13-01A, Level 13 (East Wing), Berjaya Times Square, No. 1 Jalan Imbi 55100 Kuala Lumpur.

The penultimate holding and ultimate holding companies of the Company are Berjaya Land Berhad and Berjaya Corporation Berhad ("BCorp") respectively, both of which are incorporated and domiciled in Malaysia and listed on the Main Market of Bursa Malaysia Securities Berhad.

Related companies in the financial statements refer to member companies of the BCorp group of companies other than subsidiary companies of the Company.

The financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the Directors on 12 August 2009.

2 SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of Preparation

The financial statements of the Group and of the Company have been prepared under the historical cost convention unless otherwise indicated in the accounting policies below and comply with Financial Reporting Standards ("FRSs") and the Companies Act, 1965 in Malaysia.

At the beginning of the current financial year, the Group and the Company had adopted new and revised FRSs which are mandatory as described in Note 2.3.

The financial statements are presented in Ringgit Malaysia ("RM") and all values are rounded to the nearest thousand ("RM'000") except otherwise indicated.

2.2 Summary of Significant Accounting Policies

(a) Subsidiaries and basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and all its subsidiary companies made up to the end of the financial year. The financial statements of the subsidiary companies are prepared for the same reporting date as the Company.

Subsidiary companies are those entities controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group has such power over another entity.

2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.2 Summary of Significant Accounting Policies (Cont'd)

(a) Subsidiaries and basis of consolidation (cont'd)

Subsidiary companies are consolidated using the purchase method of accounting. Under the purchase method of accounting, the results of subsidiary companies acquired during the financial year are included in the consolidated financial statements from the effective date of acquisition and continue to be consolidated until the date such control ceases. The purchase method of accounting involves allocating the cost of the acquisition to the fair value of the assets acquired and liabilities and contingent liabilities assumed at the date of acquisition. At the Group level, provisions are made for the acquiree's contingent liabilities existing at the date of acquisition as the Group deems that it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations. The cost of an acquisition is measured as the aggregate of the fair values, at the date of exchange, of the assets given, liabilities incurred or assumed, and equity instruments issued, plus any costs directly attributable to the acquisition.

Any excess of the cost of the acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities represents goodwill.

Any excess of the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition is recognised immediately in income statement.

Uniform accounting policies are adopted in the consolidated financial statements for similar transactions and other events in similar circumstances. In the preparation of the consolidated financial statements, the financial statements of all subsidiary companies are adjusted for the material effects of dissimilar accounting policies. Intragroup transactions, balances and unrealised gains are eliminated on consolidation and the consolidated financial statements reflect external transactions only. Unrealised losses are eliminated on consolidation unless cost cannot be recovered.

Minority interests represents the portion of the results for the year and net assets in subsidiaries not held by the Group. Minority interests is measured at the minorities' share of fair value of the identifiable assets and liabilities of the acquiree as at acquisition date and the minorities' share of movements in the acquiree's equity since then.

In the Company's separate financial statements, investments in subsidiaries are stated at cost less impairment losses.

(b) Associated companies

Associated companies are entities in which the Group has significant influence and where the Group participates in its financial and operating policies through Board representation. Investments in associated companies are accounted for in the consolidated financial statements by the equity method of accounting based on the latest audited or management financial statements of the companies concerned made up to the Group's financial year-end. Uniform accounting policies are adopted for like transactions and events in similar circumstances.

Under the equity method of accounting, the Group's investment in associated companies is initially recognised in the consolidated balance sheet at cost adjusted for the Group's share of post-acquisition changes in the share of the net assets of the associated companies, less impairment losses. The Group's share of results of associated companies during the financial year is included in the consolidated financial statements. The Group's share of results of associated companies acquired or disposed of during the year, is included in the consolidated income statement from the date that significant influence effectively commences until the date that significant influence effectively ceases, as appropriate.

Unrealised gains and losses on transactions between the Group and the associated companies are eliminated to the extent of the Group's interest in the associated companies. Unrealised losses are eliminated unless cost cannot be recovered.

Goodwill relating to an associated company is included in the carrying amount of the investment and is not amortised. Any excess of the Group's share of net fair value of the associated company's identifiable assets, liabilities and contingent liabilities over the cost of investment is excluded from the carrying amount of the investment and is instead included as income in the determination of the Group's share of associated company's income statements in the period in which the investment is acquired.

Notes To The Financial Statements

30 April 2009

2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.2 Summary of Significant Accounting Policies (Cont'd)

(b) Associated companies (cont'd)

When the Group's share of losses equals or exceeds its interest in an equity accounted associated company including any long-term interest that, in substance, form part of the Group's net investment in the associated company, the carrying amount of that interest is reduced to nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payment on behalf of the associated companies.

In the Company's separate financial statements, investment in associated companies are stated at cost less impairment losses.

(c) Intangible assets

(i) Goodwill

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost of business combination over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities. Following the initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is not amortised but instead, it is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

(ii) Other intangible assets

The cost of intangible assets acquired in a business combination is at their fair values as at the date of acquisition. The intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and any accumulated impairment losses. Intangible assets with finite lives are amortised on a straight line basis over the estimated economic useful lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset are reviewed yearly at each balance sheet date.

Research and development costs

Research costs are recognised in the income statement as incurred.

Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditures which do not meet these criteria are expensed when incurred.

Development costs, considered to have finite useful lives, are stated at cost less any impairment losses and are amortised using the straight-line basis over the commercial lives of the underlying products. Impairment is assessed whenever there is an indication of impairment and the amortisation period and method are also reviewed at least at each balance sheet date.

(d) Property, plant and equipment and depreciation

Property, plant and equipment are initially recorded at cost. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Subsequent to recognition, property, plant and equipment except for freehold land are stated at cost less accumulated depreciation and any accumulated impairment losses.

2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**2.2 Summary of Significant Accounting Policies (Cont'd)****(d) Property, plant and equipment and depreciation (cont'd)**

Freehold land that has an unlimited useful life is not depreciated. Capital work-in-progress are also not depreciated as these assets are not available for use. Depreciation of other property, plant and equipment is provided for on a straight-line basis to write off the cost of each asset to its residual value over the estimated useful life, at the following annual rates:

Buildings	2%
Plant and machinery	20% - 33%
Computer equipment	12.5% - 33%
Office equipment	10% - 67%
Furniture and fittings	10% - 33%
Motor vehicles	20% - 33%
Renovations	10% - 20%

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal.

(e) Investment properties

Investment properties are properties which are held either to earn rental income or for capital appreciation or for both. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value. Fair value is arrived at by reference to market evidence of transaction prices for similar properties.

Gains or losses arising from changes in the fair values of investment properties are recognised in the income statement in the year in which they arise.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in income statement in the year in which they arise.

When an item of property, plant and equipment is transferred to investment property following a change in its use, any difference arising at the date of transfer between the carrying amount of the item immediately prior to transfer and its fair values is recognised directly in equity. However, if a fair value gain reverses a previous impairment loss, the gain is recognised in income statement. Upon disposal of the investment property, any surplus previously recorded in equity is transferred to retained earnings.

(f) Impairment of non-financial assets

The carrying amounts of the Group's assets, other than investment properties, inventories, deferred tax assets and non-current assets (or disposal groups) held for sale, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated to determine the amount of impairment loss.

For goodwill, intangible assets that have an indefinite useful life and intangible assets that are not yet available for use, the recoverable amount is estimated at each balance sheet date or more frequently when indicators of impairment are identified.

2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.2 Summary of Significant Accounting Policies (Cont'd)

(f) Impairment of non-financial assets (cont'd)

For the purpose of impairment testing of these assets, recoverable amount is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. If this is the case, recoverable amount is determined for the cash-generating unit ("CGU") to which the asset belongs to. Goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's CGUs, or groups of CGUs, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses recognised in respect of a CGU or groups of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to those units or groups of units and then, to reduce the carrying amount of the other assets in the unit or groups of units on a pro-rata basis.

An impairment loss is recognised in income statement in the year in which it arises, unless the asset is carried at a revalued amount, in which case the impairment loss is accounted for as a revaluation decrease to the extent that the impairment loss does not exceed the amount held in the asset revaluation reserve for the same asset.

Impairment loss on goodwill is not reversed in a subsequent period. An impairment loss for an asset other than goodwill is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of an asset other than goodwill is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior years. A reversal of impairment loss for an asset other than goodwill is recognised in income statement.

(g) Inventories

Inventories comprise raw materials, work-in-progress and finished goods that are stated at the lower of cost and net realisable value. Cost, in the case of work-in-progress and finished goods, comprises raw materials, direct labour and an attributable proportion of production overheads. Cost is determined on the first-in first-out basis, the weighted average cost method, or by specific identification. Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

Ticket inventories and gaming equipment components and parts are stated at the lower of cost and net realisable value. Cost is determined on a first-in first-out basis.

Property inventories are stated at the lower of cost and net realisable value. Cost includes the relevant cost of land, development expenditure and related interest cost incurred during the development period.

(h) Financial instruments

Financial instruments are recognised in the balance sheet when the Group has become a party to the contractual provisions of the instrument.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. Interest, dividends and gains and losses relating to a financial instrument classified as liability, are reported as expense or income. Distributions to holders of financial instruments classified as equity are recognised directly in equity. Financial instruments are offset when the Group has a legally enforceable right to offset and intends to settle either on a net basis or to realise the asset and settle the liability simultaneously.

(i) Cash and cash equivalents

For the purposes of the cash flow statements, cash and cash equivalents include cash on hand and at bank, deposits at call and short term highly liquid investments which have an insignificant risk of changes in value, net of outstanding bank overdrafts.

2.2 Summary of Significant Accounting Policies (Cont'd)

(h) Financial instruments (cont'd)

(ii) Investments

Non-current investments

Non-current investments comprise quoted and unquoted securities, Malaysian Government Securities ("MGS"), bonds and club membership but exclude investments in subsidiaries, associates, jointly controlled entities and investment properties, are stated at cost less impairment loss.

Short term investments

Short term investments are stated at lower of cost and net realisable value.

(iii) Receivables

Trade and other receivables are carried at anticipated realisable values. Bad debts are written off when identified. An estimate is made for doubtful debts based on a review of all outstanding amounts as at the balance sheet date.

(iv) Payables

Trade and other payables are stated at cost which is the fair value of the consideration to be paid in the future for goods and services received.

(v) Interest bearing loans and borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received. After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method.

(vi) Equity instruments

Ordinary shares are classified as equity. Dividends on ordinary shares are recognised in equity in the period in which they are declared and approved for payment.

The transaction costs of an equity transaction are accounted for as a deduction from equity, net of tax. Equity transaction costs comprise only those incremental external costs directly attributable to the equity transaction which would otherwise have been avoided.

The consideration paid, including attributable transaction costs on repurchased ordinary shares of the Company that have not been cancelled, are classified as treasury shares and presented as a deduction from equity. No gain or loss is recognised in income statement on the sale, re-issuance or cancellation of treasury shares. When treasury shares are reissued by resale, the difference between the sales consideration and the carrying amount is recognised in equity.

(i) Leases

A lease is recognised as a finance lease if it transfers substantially to the Group all the risks and rewards incidental to ownership. Leases of land and buildings are classified as operating or finance leases in the same way as leases of other assets and the land and buildings elements of a lease of land and buildings are considered separately for the purposes of lease classification. All leases that do not transfer substantially all risks and rewards are classified as operating leases, with the following exceptions:

- Property held under operating leases that would otherwise meet the definition of an investment property is classified as an investment property on a property-by-property basis and, if classified as investment property, is accounted for as if held under a finance lease (Note 2.2 (e)); and
- Land held for own use under an operating lease, the fair value of which cannot be measured separately from the fair value of a building situated thereon at the inception of the lease, is accounted for as being held under a finance lease, unless the building is also clearly held under an operating lease.

2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.2 Summary of Significant Accounting Policies (Cont'd)

(i) Leases (cont'd)

(i) Finance leases - the Group as lessee

Assets acquired by way of hire purchase or finance leases are stated at an amount equal to the lower of their fair values and the present value of the minimum lease payments at the inception of the leases, less accumulated depreciation and impairment losses. The corresponding liability is included in the balance sheet as borrowings. In calculating the present value of the minimum lease payments, the discount factor used is the interest rate implicit in the lease, when it is practicable to determine; otherwise, the Company's incremental borrowing rate is used. Any initial direct costs are also added to the carrying amount of such assets.

Lease payments are apportioned between finance costs and the reduction of the outstanding liability. Finance costs, which represent the difference between the total leasing commitments and the fair value of the assets acquired, are recognised in the income statement over the term of the relevant lease so as to produce a constant periodic rate of charge on the remaining balance of the obligations for each accounting period.

The depreciation policy for leased assets is in accordance with that for depreciable property, plant and equipment as described in Note 2.2 (d).

(ii) Operating leases - the Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the term of the relevant lease. The aggregate benefit of incentives provided by the lessor is recognised as a reduction of rental expense over the lease term on a straight-line basis.

In the case of a lease of land and buildings, the minimum lease payments or the up-front payments made are allocated, whenever necessary, between the land and the buildings elements in proportion to the relative fair values for leasehold interests in the land element and buildings element of the lease at the inception of the lease. The up-front payment represents prepaid lease payments and are amortised on a straight-line basis over the lease term.

(iii) Operating leases - the Group as lessor

Assets leased out under operating leases are presented on the balance sheets according to the nature of the assets. Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease (Note 2.2(o)(iv)). Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

(j) Borrowing costs

All borrowing costs are recognised in income statement in the period in which they are incurred.

(k) Income tax

Tax expense for the year comprises current and deferred tax. Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and adjustment to tax payable in respect of the previous year.

Deferred tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred tax is not recognised if the temporary difference arises from goodwill which is not deductible for tax purposes or from the initial recognition of assets or liabilities in a transaction which is not a business combination and at the time of transaction affects neither accounting nor taxable profit.

The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

Deferred tax is recognised in income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised directly in equity, or when it arises from a business combination that is an acquisition, in which case it is included in the resulting goodwill or the excess of the acquirer's interest in the fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the cost of the combination.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.2 Summary of Significant Accounting Policies (Cont'd)

(l) Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount can be made. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the amount of provision is the present value of the expenditure expected to be required to settle the obligation.

(m) Employee benefits

(i) Short term benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the year in which the associated services are rendered by employees of the Group. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

(ii) Defined contribution plans

Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into separate entities or funds and will have no legal or constructive obligation to pay further contributions if any of the funds do not hold sufficient assets to pay all employee benefits relating to employee services in the current and preceding financial years. Such contributions are recognised as an expense in the income statement as incurred. As required by law, companies in Malaysia make such contributions to the Employees Provident Fund ("EPF"). Some of the Group's foreign subsidiaries also make contributions to their respective countries' statutory pension schemes.

(iii) Retirement benefit obligations

Pension benefits are provided to employees of the Group's foreign subsidiaries through a partially funded defined benefit plan.

A defined benefit plan is a pension plan that defines an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and salary. The legal obligation for any benefits from this kind of pension plan remains with the Group even if plan assets for funding the defined benefit plan have been acquired. Plan assets may include assets specifically designated to a long term benefit fund, as well as qualifying insurance policies.

The liability recognised in the consolidated balance sheet for defined benefit plans is the present value of the defined benefit obligation ("DBO") at the consolidated balance sheet date less the fair value of plan assets, together with adjustments for unrecognised actuarial gains or losses and past service costs. The DBO is regularly calculated by independent actuaries using the projected unit credit method. The present value of the DBO is determined by discounting the estimated future cash outflows using interest rates of high quality corporate bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating the terms of the related pension liability.

Actuarial gains and losses are not recognised as an expense unless the total unrecognised gain or loss exceeds 10% of the greater of the obligation and related plan assets. The amount exceeding this 10% corridor is charged to or credited to income statement over the employees' expected average remaining working lives. Actuarial gains or losses within the 10% corridor are disclosed separately. Past service costs are recognised immediately in the income statements, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past service costs are amortised on a straight-line basis over the vesting period.

(n) Foreign currencies

(i) Functional and presentation currency

The individual financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in RM, which is also the Company's functional currency.

Notes To The Financial Statements

30 April 2009

2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.2 Summary of Significant Accounting Policies (Cont'd)

(n) Foreign currencies (cont'd)

(ii) Foreign currency transactions

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recorded in the functional currencies using the exchange rates prevailing at the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are translated at the rates prevailing on the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of transaction.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are included in income statements except for exchange differences arising on monetary items that form part of the Group's net investment in foreign operation. Exchange differences arising on monetary items that form part of the Group's net investment in foreign operation are recognised in equity. However, the exchange differences arising on monetary items that form part of the Company's net investment in foreign operation, regardless of the currency of the monetary item, are recognised in the Company's income statement or the individual financial statements of the foreign operation, as appropriate.

Exchange differences arising on the translation of non-monetary items carried at fair value are included in the income statements except for the differences arising on the translation of non-monetary items in respect of which gains and losses are recognised directly in equity. Exchange differences arising from such non-monetary items are recognised directly in equity.

(iii) Foreign operations

The results and financial position of the foreign operations that have a functional currency different from the presentation currency (RM) of the consolidated financial statements are translated into RM at the rates ruling at the balance sheet date for assets and liabilities. Income and expenses are translated at average exchange rates for the year, which approximates the exchange rates at the dates of the transaction. Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the Company and translated at the closing rate at the balance sheet date. Exchange differences on translation of the net assets of foreign subsidiary companies are dealt with through an exchange reserve.

The principal exchange rates used for each respective unit of foreign currencies ruling at the balance sheet date are as follows:

	30.4.2009 RM	30.4.2008 RM
1 United States Dollar ("USD")	3.5655	3.1535
1 Hong Kong Dollar ("HKD")	0.4601	0.4047
1 Philippines Peso ("Php")	0.0735	0.0748

(o) Revenue and other income recognition

Revenue and other income are recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

(i) Gaming activities

Revenue from gaming activities is recognised based on ticket sales, net of gaming tax relating to draw days within the financial year.

2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.2 Summary of Significant Accounting Policies (Cont'd)

(o) Revenue and other income recognition (cont'd)

(ii) Dividend income

Dividend income from subsidiary and associated companies are recognised when the right to receive the dividend payment is established.

Dividend income from other investments is recognised on receipt basis.

(iii) Interest income

Interest income is recognised on an accrual basis unless recoverability is in doubt.

(iv) Rental income

Rental income is recognised based on the accrual basis unless collection is in doubt, in which case it is recognised on receipt basis.

(v) Management fee income

Management fee income is recognised on an accrual basis.

(vi) Lease of lottery equipment

Revenue from the lease of lottery equipment is recognised based on certain percentage of gross receipts from lottery ticket sales, excluding the foreign value-added tax.

(vii) Lottery and voting products sales, services and licencing income

Revenue from lottery and voting products sales and services income are recognised on the basis of shipment of products, performance of services and percentage-of-completion method for long term contracts. The percentage-of-completion is estimated by comparing the cost incurred to date against the estimated cost to completion. Revenue relating to the sale of certain assets, when the ultimate total collection is not reasonably assured, are being recorded under the cost recovery method.

(viii) Property inventories

Revenue from sale of completed properties is recognised when the significant risks and rewards of ownership of the completed properties have been passed to the buyer.

(p) Segmental reporting

The Group adopts business segment analysis as its primary reporting format and geographical segment analysis as its secondary reporting format.

Segment revenue and expenses are those directly attributable to the segments and include any joint revenue and expenses where a reasonable basis of allocation exists. Revenue and expenses do not include items arising on investing or financing activities.

Revenue presented under geographical segments are based on location of customer where sale is transacted.

Segment assets include all operating assets used by a segment and do not include items arising on investing or financing activities. Assets are allocated to a segment based on location of assets for that presented under geographical segments. Segment liabilities comprise operating liabilities and do not include liabilities arising on investing or financing activities such as bank borrowings.

IC Interpretation 13	: Customer Loyalty Programmes	1 January 2010
IC Interpretation 14	: FRS 119 - The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction	1 January 2010

The FRSs, Amendments to FRSs and Interpretations above are expected to have no significant impact on the financial statements of the Group and the Company upon their initial application except for the changes in disclosures arising from the adoption of FRS 7 and FRS 8.

The Group and the Company are exempted from disclosing the possible impact, if any, to the financial statements upon the initial application of FRS 139.

2 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.5 Significant Accounting Estimates and Judgements

(a) Critical judgements made in applying accounting policies

The following are the judgements made by the management in the process of applying the Group's accounting policies that have the most significant effect on the amounts recognised in the financial statements.

Classification between investment properties and property, plant and equipment

The Group has developed certain criteria based on FRS 140 in making judgement whether a property qualifies as an investment property. Investment property is a property held to earn rentals or for capital appreciation or both.

Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for own use. Since these properties cannot be sold separately and the portion held for own use is insignificant, the Group has classified the whole of the properties as investment properties.

(b) Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(i) Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value-in-use of the CGU to which goodwill is allocated. Estimating a value-in-use amount requires management to make an estimate of the expected future cash flows from the CGU and also to choose a suitable discount rate in order to calculate the present value of those cash flows. The carrying amount of goodwill as at 30 April 2009 was RM618,291,000 (2008 : RM618,352,000). Further details are disclosed in Note 10.

(ii) Deferred tax assets

Deferred tax assets are recognised for all unused tax losses and unabsorbed capital allowances to the extent that it is probable that taxable profit will be available against which the losses and capital allowances can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

(iii) Useful life of property, plant and equipment

The Group estimates the useful lives of property, plant and equipment based on the period over which the assets are expected to be available for use. The estimated useful lives of property, plant and equipment are reviewed periodically and are updated if expectations differ from previous estimate due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets.

Impairment test for goodwill

Allocation of intangible assets

Goodwill has been allocated to the Group's CGUs identified according to business segments as follows:

	Group	
	2009 RM'000	2008 RM'000
Toto betting operations and leasing of lottery equipment	607,852	609,115
Others	10,439	9,237
	618,291	618,352

Key assumptions used in value-in-use calculations

The recoverable amount of a CGU is determined based on value-in-use calculations using cash flow projections based on financial budgets covering 5 years period.

The key assumptions used for value-in-use calculations are:

- i) Budgeted gross margin and growth rate
The basis used to determine the value assigned to the budgeted gross margin is the average gross margin and average growth rate achieved in the years before the budgeted year, adjusted for market and economic conditions and internal resource efficiency.
- ii) Discount rates
The significant post-tax discount rates, applied to post-tax cash flows, used for the respective identified CGUs are in the range of 8% to 12% (2008 : 15% to 16%).

Sensitivity to changes in assumptions

The management believes that no reasonably possible change in any of the above key assumptions which would cause the carrying values of the goodwill to materially exceed their recoverable amounts.

20 RETAINED EARNINGS

In accordance with the Finance Act 2007 which was gazetted on 28 December 2007, companies shall not be entitled to deduct tax on dividend paid, credited or distributed to its shareholders, and such dividends will be exempted from tax in the hands of the shareholders ("single tier system"). However, there is a transitional period of six years, expiring on 31 December 2013, to allow companies to frank dividends to their shareholders under limited circumstances. Companies also have an irrevocable option to disregard the Section 108 balance and opt to pay dividends under single tier system. The change in tax legislation also provides for the Section 108 balance to be locked-in as at 31 December 2007 in accordance with Section 39 of the Finance Act 2007.

During the transitional period, the Company may utilise the credit in the Section 108 balance as at 31 December 2007 to distribute cash dividend payments to ordinary shareholdings as defined under the Finance Act 2007. The Company previous year's Section 108 balance was approximately RM75,554,000. The Company has substantially utilised the Section 108 balance during the year and thereafter has elected to pay single tier exempt and tax exempt dividend. The Company also has tax exempt account of approximately RM263,238,000 (2008 : RM91,871,000) as at 30 April 2009.

Domestic current income tax is calculated at the statutory tax rate of 25% (2008 : 26%) of the estimated assessable profit for the year. The domestic statutory tax rate is reduced to 25% from the previous year's rate of 26% effective for year of assessment 2009 and the subsequent years. The computation of deferred tax as at 30 April 2009 has reflected these changes. Taxation of other jurisdictions is calculated at the rates prevailing in the respective jurisdictions.

A reconciliation of income tax expense applicable to profit before tax at the statutory income tax rate to income tax expense at the effective income tax rate of the Group and the Company are as follows:

40 FINANCIAL INSTRUMENTS**(a) Financial Risk Management Objectives and Policies**

The financial risk management policies of the Company and its subsidiaries ("the Group") seek to ensure that adequate financial resources are available for the development of the Group's businesses whilst managing its currency, interest rate, market, credit and liquidity risks. The Group operates within clearly defined guidelines and the Group's policy is not to engage in speculative transactions.

(b) Currency Risk

The Group predominantly operates in Malaysia even though it has some overseas subsidiary companies. The Group has limited exposure to foreign exchange risk as the transactional currencies are mostly in the functional currencies of the respective operating entities other than exposure on the advances to a subsidiary company that was treated as net investment in a foreign operation. The Group has minimal currency transaction exposures. Such exposure mainly arises from sales and purchases between inter-companies within the Group.

(c) Interest Rate Risk

The Group's primary interest rate risk related to interest bearing assets and interest bearing borrowings.

The interest bearing assets are made up of deposits with licensed financial institutions. The Group manages the interest rate risk of its deposits with licensed financial institutions by placing them at the most competitive interest rates obtainable, which yield better returns than cash at bank by placing them as short term deposits and actively reviewing its portfolio of deposits.

(d) Market Risk

The Group has minimal exposure to market risk as its investment is mainly on government guaranteed securities and its investments on quoted shares and domestic properties are not substantial. However, the risk of loss in value of the Group's quoted investments and properties is minimised via proper assessment before making investments and continuous monitoring of the performance of the investments.

(e) Credit Risk

The Group does not have any significant exposure to any individual customer or counterparty nor does it have any major concentration of credit risk related to any financial instruments.

Credit risk or risk of counterparts defaulting, is controlled by the application of credit approval limits and monitoring procedures.

(f) Liquidity Risk

The Group actively manages its operating cash flows and the availability of funding so as to ensure that all repayment and funding needs are met.

The Group maintains sufficient levels of cash and the availability of funding so as to ensure that its working capital requirements are met.

At 30 April 2008:		
Term loan - Fixed rates	360,000	333,791

The following methods and assumptions are used to estimate the fair values of the following classes of financial instruments:

i) Cash and bank balances, receivables, payables, short term investments, fixed rates borrowings and amount due from / to subsidiary companies

The carrying amounts approximate fair values due to the relatively short term maturity of these financial instruments.

The fair values of borrowings on the term loan are estimated by discounting the expected future cash flows using current interest rates for liabilities with similar risk profiles.

It is not practical to estimate the fair values of amount due from / to subsidiary companies, principally due to lack of fixed repayment term entered by the parties involved and without incurring excessive costs. However, the Group does not anticipate the carrying amounts of all these outstanding balances recorded at the balance sheet date to be significantly different from the values that would eventually be received or settled.

ii) Investment in unquoted securities

It is not practical to estimate the fair values of the Group's investment in unquoted securities because of the non-availability of a market price and the inability to estimate the fair value without incurring excessive costs.

iii) Investment in quoted securities

The fair values for quoted securities are obtained using market values as disclosed in Notes 6.

Unallocated corporate items refer to items relating to investing or financing activities and items that cannot be reasonably allocated to individual segments.

Other non-cash items mainly include unrealised loss on foreign exchange, write-off of property, plant and equipment, inventories written down and allowance for doubtful debts.

Inter-segment transactions / items are eliminated on consolidation.

Capital expenditure consists of additions of property, plant and equipment, intangible assets and investment properties.

* Other business segments include property investment and development and investment holding and manufacture and distribution of computerised lottery and voting systems, none of which are of a sufficient size to be reported separately.

Notes To The Financial Statements

42 SIGNIFICANT EVENTS AFTER THE FINANCIAL YEAR

- (a) On 4 May 2009, the Company announced that its wholly-owned subsidiary company, BSTC had entered into a Share Sale Agreement with Ferrystar Limited for the proposed acquisition of 60.655 million ordinary shares of Php1.00 each representing approximately 6.81% equity interest in PGPI for a total cash consideration of Php455.95 million (equivalent to RM33.959 million). The acquisition was completed in May 2009 and consequently, the total equity interests held by the Group increased from 81.45% to 88.26%.
- (b) On 15 June 2009, the Company entered into a Share Sale Agreement with its wholly-owned subsidiary, Magna Mahsuri Sdn Bhd ("Magna Mahsuri") for the disposal of 19,500,000 shares of USD1.00 each representing 100% of the issued and paid-up share capital of BSTC, another wholly-owned subsidiary of the Company for a total consideration of RM520.0 million. The total consideration of RM520.0 million for the sales of shares is satisfied by Magna Mahsuri via the issuance of 260.0 million new ordinary shares of RM1.00 each valued at RM2.00 per share. Upon completion of the disposal of BSTC, an exceptional gain on disposal of approximately RM469.33 million was recognised at the Company level. However, the disposal is an intra group transaction and does not have any effect at the group level as the gain on disposal is eliminated under the consolidation principles.

7. As special business:-
 - a) To consider and, if thought fit, pass the following Ordinary Resolutions :-
 - (i) **Authority to Issue and Allot Shares Pursuant to Section 132D of the Companies Act, 1965**

"That, subject always to the Companies Act, 1965, the Articles of Association of the Company and the approvals of the relevant governmental/regulatory authorities, the Directors be and are hereby empowered, pursuant to Section 132D of the Companies Act, 1965, to issue and allot shares in the Company from time to time and upon such terms and conditions and for such purposes as the Directors may deem fit provided that the aggregate number of shares issued pursuant to this resolution does not exceed 10% of the issued share capital of the Company for the time being and that such authority shall continue to be in force until the conclusion of the next Annual General Meeting of the Company."

RESOLUTION 8
 - (ii) **Proposed Renewal of and New Shareholders' Mandate for Recurrent Related Party Transactions of a Revenue or Trading Nature**

"That, subject to the provisions of the Bursa Malaysia Securities Berhad Main Market Listing Requirements, approval be and is hereby given for the Company and its subsidiaries, to enter into recurrent related party transactions of a revenue or trading nature with the related parties as specified in Section 2.3 of the Circular to Shareholders dated 29 September 2009 ("Proposed Mandate") which are necessary for the day-to-day operations and/or in the ordinary course of business of the Company and its subsidiaries on terms not more favourable to the related parties than those generally available to the public and are not detrimental to the minority shareholders of the Company and that such approval shall continue to be in force until:-

Notice of Annual General Meeting

- (i) the conclusion of the next Annual General Meeting (“AGM”) of the Company following the AGM at which the ordinary resolution for the Proposed Mandate will be passed, at which time it will lapse, unless by a resolution passed at a general meeting, the authority is renewed; or
- (ii) the expiration of the period within which the next AGM after the date it is required to be held pursuant to Section 143(1) of the Companies Act, 1965 (but shall not extend to such extension as may be allowed pursuant to Section 143(2) of the Companies Act, 1965); or
- (iii) revoked or varied by resolution passed by the shareholders at a general meeting;

whichever is the earlier;

And Further That authority be and is hereby given to the Directors of the Company and its subsidiaries to complete and do all such acts and things (including executing such documents as may be required) to give effect to such transactions as authorised by this Ordinary Resolution.”

RESOLUTION 9

(iii) Proposed Renewal of Authority to Purchase Its Own Shares by the Company

“THAT, subject always to the Companies Act, 1965, (“Act”), rules, regulations and orders made pursuant to the Act, provisions of the Company’s Memorandum and Articles of Association and Bursa Malaysia Securities Berhad (“Exchange”) Main Market Listing Requirements and any other relevant authority, the Directors of the Company be and are hereby authorised to purchase such number of ordinary shares of RM0.10 each in the Company (“BToto Shares”) through the Exchange and to take all such steps as are necessary (including the opening and maintaining of a central depositories account under the Securities Industry (Central Depositories) Act, 1991) and enter into any agreements, arrangements and guarantees with any party or parties to implement, finalise and give full effect to the aforesaid purchase with full powers to assent to any conditions, modifications, revaluations, variations and/or amendments (if any) as may be imposed by the relevant authorities from time to time and to do all such acts and things in the best interests of the Company, subject further to the following:-

1. the maximum number of ordinary shares which may be purchased and held by the Company shall be equivalent to ten per centum (10%) of the total issued and paid-up share capital of the Company inclusive of the 5,331,932 BToto Shares already purchased and retained as treasury shares;
2. the maximum funds to be allocated by the Company for the purpose of purchasing the ordinary shares shall not exceed the total retained profit or share premium reserve of the Company or both;
3. the authority shall commence immediately upon passing of this resolution until:-
 - (a) the conclusion of the next annual general meeting of the Company following the general meeting at which such resolution was passed at which time it will lapse unless by ordinary resolution passed at that meeting, the authority is renewed, either unconditionally or subject to conditions; or
 - (b) the expiration of the period within which the next annual general meeting after that date is required by law to be held; or
 - (c) revoked or varied by ordinary resolution passed by the shareholders in general meeting;

whichever occurs first;

Notice of Annual General Meeting

AND THAT upon completion of the purchase(s) of the BToto Shares or any part thereof by the Company, the Directors of the Company be and are hereby authorised to deal with any BToto Shares so purchased by the Company in the following manner :-

- (a) cancel all the BToto Shares so purchased; or
- (b) retain all the BToto Shares as treasury shares for future re-sale or for distribution as dividend to the shareholders of the Company; or
- (c) retain part thereof as treasury shares and subsequently cancelling the balance; or
- (d) any other manner as prescribed by the Act, rules, regulations and orders made pursuant to the Act and the requirements of the Exchange and any other relevant authority for the time being in force.”

RESOLUTION 10

- b) To consider and, if thought fit, to pass the following Special Resolution:-

Proposed Amendments to the Company's Articles of Association

“That the alterations, modifications, deletions and/or additions to the Company's Articles of Association contained in Part C of the Circular to Shareholders dated 29 September 2009 be and are hereby approved.”

RESOLUTION 11

By Order of the Board

Notice of Annual General Meeting

NOTES (CONT'D):

(B) SPECIAL BUSINESS

- (i) Resolution 8 is proposed pursuant to Section 132D of the Companies Act, 1965 and if passed, will give the Directors of the Company, from the date of the above Annual General Meeting, authority to issue and allot shares not exceeding 10% of the existing issued and paid-up share capital of the Company for such purposes as the Directors may deem fit and in the interest of the Company. This authority, unless revoked or varied by the Company in general meeting, will expire at the conclusion of the next Annual General Meeting of the Company.

As at the date of this Notice, no new shares in the Company were issued pursuant to the mandate granted to the Directors at the last Annual General Meeting held on 22 October 2008 and which will lapse at the conclusion of the Annual General Meeting.

The General Mandate will provide flexibility to the Company for any possible fund raising activities, including but not limited to further placing of shares, for purpose of funding future investment project(s), working capital and/or acquisitions.

- (ii) Resolution 9 is in relation to the approval on the Shareholders' Mandate on Recurrent Related Party Transactions and if passed, will allow the Company and its subsidiaries to enter into Recurrent Related Party Transactions in accordance with paragraph 10.09 of the Bursa Malaysia Securities Berhad Main Market Listing Requirements. The explanatory notes on Resolution 9 is set out in Part A of the Circular to Shareholders dated 29 September 2009 attached to the Annual Report.
- (iii) Resolution 10 if passed will provide the mandate for the Company to buy back its own shares up to a limit of 10% of the issued and paid-up share capital of the Company. The explanatory notes on Resolution 10 is set out in Part B of the Circular to Shareholders dated 29 September 2009 attached to the Annual Report.
- (iv) Resolution 11 relates to the proposed amendments to the Articles of Association of the Company to incorporate the recently revised provisions of the Bursa Malaysia Securities Berhad Main Market Listing Requirements. The relevant information of Resolution 11 is set out in Part C of the Circular to Shareholders dated 29 September 2009 attached to the Annual Report.
